

Frequently Asked Questions About National Socialism (Nazism) and the National Socialist Movement

Isn't National Socialism, or Nazism, a German political philosophy that Adolf Hitler came up with that called for Germany to take over the world and for the murder of anyone who did not have blond hair and blue eyes?

National Socialism is a Nature and reason based political philosophy that Adolf Hitler created. It was first applied in Germany; however, it can be applied by anyone who believes in doing what is best for their own people. There are currently Japanese National Socialists and during WW II there were Arabs who joined the ranks of the SS to do battle against the two headed Jewish monster of Communism/Capitalism.

National Socialism looks at things as they really are. For this reason National Socialists do not buy into the big lie¹ that all people and races are equal and the same. Common sense tells us that there are obvious real physical differences and history shows us there are fundamental differences between the races that drive the White Race to be the most advanced and progress producing race on earth. For centuries people knew this simply by observation, before their natural thinking was distorted by revealed religion, governmental dictates, media manipulation and political opportunists. For example, though the Asians are generally highly intelligent, they do not have the spark for discovery and exploration that is unique to the Aryan (White) Race. This Aryan Spark has driven the White Race to explore and to always want to know what's on the other side of the mountain, what's across the ocean and even what's in outer space. Also, it's an historic fact that when the Whites did cross the Atlantic Ocean and discovered North America, the natives were living in the Stone Age with actual stone arrow heads and

¹ Due to anti-National Socialist propaganda and lies, many people incorrectly believe that Adolf Hitler wrote in *Mein Kampf* that Nazis should use "the big lie" to gain and maintain power. The truth of the matter is that Hitler wrote that the Marxists and Jews use "the big lie" to control the people, not the National Socialists. The fact that so many people believe the lie that Hitler promoted the big lie technique instead of the truth demonstrates the power of the big lie technique that organized Jewry uses so well. As someone who valued truth, Hitler in reality condemned the big lie technique and [Hitler successfully sued in a U.S. court to stop Alan Cranston from making unauthorized revisions of Mein Kampf.](#)

tomahawks and did not even have a written language. If all races are the same and equal in ability, why didn't the Chinese cross the oceans and why were the natives of North America living in the Stone Age? And why has it become taboo to openly speak of these racial realities?

As science makes more progress we are learning the importance of DNA and genetics. DNA can be compared to the code that makes up computer programs. A minute difference in the code causes great differences in the end product of a computer program. The same is true with genetics and DNA. The relatively small differences between the genetic code of the different races makes a world of difference in the final product as can be seen in the appearance between a Black and a White, as just one example.

As to the often believed falsehood that Hitler wanted Germany to take over the world, in his book *Mein Kampf*, Hitler said the White Race, not Germany, should and does rule the world. Of course, in our day and age, the White Race is in retreat around the globe and is in real danger of dying out. On a global scale, the White Race is a true racial minority and is shrinking in numbers every day.

National Socialism is based on love of your race/people. It does not call for the murder of anyone who does not have blond hair and blue eyes. Hitler himself did not have blond hair. It would be odd for someone to start a political philosophy that called for their own death!

I'm a Libertarian and believe that any form of government is wrong. Why should we have a government in the first place?

When people first started to evolve and develop societies and communities it was done for one reason. Adolf Hitler, being the perceptive man of Nature and history that he was, said, "The urge to preserve the species is the first cause for the formation of human communities." This is an obvious fact. It subtly points out why White nations who allow huge influxes of non-Whites to live within their borders are in such turmoil. For if people form a community "to preserve the species", it stands to reason that once there are other races living within such a community there will be conflict. That is why Hitler also said, "One blood demands one government." This is a National Socialist principle that stands squarely upon Nature and reason.

Thomas Jefferson also revealed that he recognized this same truth when he wrote for the repatriation of Negroes from America to Africa in his *Notes on Virginia*. Jefferson wrote that Whites and Blacks cannot live together in the

same government because it will probably lead to “the extermination of the one or the other race.” Due to genetic realities, the White Race is being exterminated not just through violence, but through race mixing.

When government is looked at in this natural light and original purpose/meaning, government serves a very high purpose; the preservation and advancement of its people. In fact, the [U.S. Declaration of Independence](#) openly says that when government stops serving the interests of the people, the people have the right, the duty, to overthrow the government and institute a new government in the form and fashion that seems best to them.

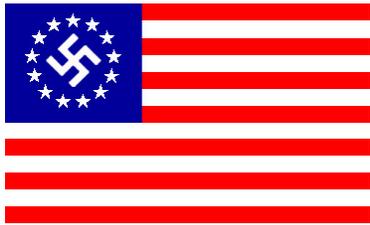

Due to the unnatural turn White nations have taken since 1939 when England and France declared war on their racial brothers and sisters in National Socialist Germany, when Germany took back its territory that was taken from it and given to Poland, it’s no wonder that people think all types of government are bad. However, since all White nations have betrayed their White People, all of these nations have gone against the natural reason and purpose for government, that is, to preserve the species/race/people.

In the United States the government not only helped to destroy its racial family in National Socialist Germany, it used military violence to force White Americans to integrate with Negroes. In fact, as the pictures below point out, in some cases it even used the same military outfit, the 101st Airborne, in both attacks on White People. The picture on the left is the 101st Airborne in Germany during WW II holding a captured Nazi flag, and the picture on the right is the 101st Airborne in Little Rock, Arkansas in 1957 using rifles and bayonets to put down and oppress White Americans who resisted government plans to force them and their children to mix with Negroes.

National Socialists believe that a government should protect and promote the lives and culture of the people. Because there is such a vast natural difference between the races, we believe each race should have its own

government that will help to provide the best type of life for its own people. This is the true purpose and reason and “why” for government.

Isn't Nazism or National Socialism un-American?

No. Because National Socialism teaches that people have a natural moral duty to protect and promote their own kind, the ideals of the original America of 1776 were right in line with National Socialism. America was founded by Whites for Whites. The percentage of non-Whites who wrote and/or signed the Declaration of Independence and/or the U.S. Constitution is **ZERO**. Many of the signers and authors of these two key U.S. documents owned Negroes as slaves. When Thomas Jefferson wrote in the Declaration of Independence that “all men are created equal”, he was only referring to Whites. To help make this point obvious, Jefferson wrote extensively in his *Notes on Virginia* about Negro racial inferiority to Whites. Specifically he wrote that the black color of the Negro is an “eternal monotony” and after comparing the “flowing hair” and “a more elegant symmetry of form” of the Whites he states the obvious: “The circumstance of superior beauty, is thought worthy attention in the propagation of our horses, dogs, and other domestic animals; why not in that of man?” After elaborating on the various characteristics of the Blacks that demonstrate their racial inferiority to Whites, Thomas Jefferson closed with the call to remove them “beyond the reach of mixture.” He obviously did not have them in mind when he wrote “all men are created equal”!

[Article 1, Section 2](#) of the U.S. Constitution openly says that to determine how many representatives a state should have, slaves should be counted as 3/5 of a person. Does this sound like America’s Founders believed in racial equality??? Belief in race mixing is about as un-American as you can get!

Contrary to popular lies, America was not established as a multi-racial democracy. It was instead created and intended to be a White Republic. In addition to the racially aware Article 1, Section 2 mentioned above, [Article 4, Section 4](#) guarantees a “republican form of government”, not a democracy. In fact, the word “democracy” is not to be found anywhere in the U.S. Constitution or in the Declaration of Independence! America was designed to

be a White Republic, not a multiracial democracy. When you operate something in a way that it wasn't designed to be operated, it won't work and will fall apart. It's like trying to use a sports car as a pick-up truck, eventually it will be ruined. This is what has happened to America.

What about the Holocaust? Why would I want to support something that is responsible for killing six million Jewish men, women and children?

If National Socialists had killed six million innocent Jews, then neither you nor anyone else should support National Socialism. However, there is much evidence that demonstrates the much told and believed but rarely questioned story of "the Holocaust" **NEVER** happened. You owe it to yourself to examine the claims made by proponents of the Holocaust to see if they are valid. If you find they are not valid, you owe it to yourself and to truth itself to reject those claims and to warn others of the lie. If the claims made by those who say the Holocaust really did happen prove to be true, then National Socialism should cease to exist and those who openly question the Holocaust should be openly debated to demonstrate the truth of the claims of those who say the Holocaust is an historical fact.

A major reason many people doubt the claims of the Holocaust is that 13 countries currently make it illegal to even question the claims of the Holocaust! If the Holocaust really happened, there would be no reason to make it illegal to question it. In fact, those who "knew" it really happened would welcome the chance to publicly debate those who deny it. This is not the case. Instead, those who promote the belief that the Holocaust did happen want to put those individuals who dare to openly disagree with them in prison! This is exactly what happened in the Inquisition. When Galileo said Copernicus was correct, the earth is not the center of the universe, the Church put him in prison for questioning the "facts" of scripture. Today, people are put in prison for questioning the "facts" of the Holocaust!

Looking at just one claim made by those who promote the story of the Holocaust, let's look at statements made on the official Auschwitz Museum site. Auschwitz is said to have been the biggest "death camp" that the Nazis operated. At the official site of Auschwitz we are told that ["340 corpses could be burned every 24 hours after the installation of the three furnaces."](#) If you do the math, that breaks down to a little more than 113 per oven per day or almost five per hour. However, using coal or coke to cremate bodies as was used prior to the 1960s, it would take about four hours to cremate just one body. That means only six bodies could be cremated in one 24 hour period

per oven, not 113. Even with today's modern means of cremating bodies using natural gas or propane, it still takes about 2 hours to cremate just one body. The Holocaust just doesn't add up.

When I was in seventh grade our class spent an entire week studying "the Holocaust". One of the things we were "taught" is that the Nazis were so barbaric that they used dead Jews to make soap. This was preached far and wide by the professional Holocaust "survivors". Now, however, [we are told by Jews themselves that this never happened!](#) If it wasn't for people openly questioning the Holocaust, which is currently a criminal offense in 13 countries, this lie would still be believed. What other lies are yet to be uncovered about the so-called "Holocaust"? Truth must be heard, even if it upsets the status quo. And if a prison sentence hangs over the heads of researchers and historians, how can we expect them to report the truth?

Why are so many lies told about Adolf Hitler and National Socialism?

There are many reasons. The biggest reason is the excessive power of organized Jewry. Prior to the rise to power of the National Socialists in Germany, Jews were grossly overrepresented in all of the professions, in the arts and in government, much like they are today in the U.S. and Europe. When the National Socialists legally gained power, they set to work to correct this imbalance. One example of this is mentioned in the interesting book *The Nazi War on Cancer*, by Robert N. Proctor. On page 35 it is mentioned that at the Charite Hospital Cancer Institute 12 of 13 cancer researchers were Jews. Based on the National Socialist Civil Service Law of April 7, 1933, these Jews were replaced with Germans. On page 36 of the same book it is stated that the loss of the Jewish doctors did not adversely affect the cancer research. Actions like this greatly upset the world Jewish community! They were so upset, in fact, that they declared war on National Socialist Germany less than three months after Adolf Hitler was appointed German Chancellor, as the image below of the *Daily Express* reveals. This was the first step towards WW II and the death of 50 million mostly White people!

By standing up to the Jews, the Nazis became eternal enemies of a race of people who seriously believe their own lies. When the ancient Hebrews wrote the Old Testament, they wrote a lie in [Deuteronomy 7:6](#) that God told them that they are "above all people upon the face of the earth." (This is very different from National Socialists saying the White Race is superior to all other races because the statement about the White Race is based on observation and history, not on an alleged "holy scripture") Based on the Old Testament, the Jews believe they are superior to everyone on the planet and that we are all here to serve them. Anyone who does not

serve them, like Adolf Hitler and the Nazis, will suffer. This is made clear throughout the Old Testament. For example, [Isaiah 60:12](#) says regarding Jews and Israel, "FOR the nation and kingdom that will not serve thee shall perish; yea, those nations shall be utterly wasted." This terrible prediction became true for National Socialist Germany and all of her people.

Another reason lies are still being told about National Socialism and Hitler is because **National Socialism WORKS!** The politicians and powers that be in the world today who are dependent on this corrupt and shallow materialistic society do not want to lose their unnatural privilege. Under National Socialism a natural balance and order was, and will be again, brought to society. The extremely wealthy were not allowed to horde their excessive wealth while hard working people went hungry and without shelter.

Instead of a minimum wage, under National Socialism there was, and will be, a **LIVING WAGE!** This point is brought out by Adolf Hitler himself. In the book *Hitler: Memoirs of a Confidant*, by Otto Wagener, edited by Henry Ashby Turner, Jr., Hitler told Wagener, "But if we realize our social economy exactly as we discussed more than once, we will come to liberate the individual from the domination of capital and all its institutions. To begin with, labor will seize possession of capital. But what is ethically most

significant is the following: when the purchasing power of wages increases - when, as you say, it might even double - the initial effect will be that production will have to increase, since the demand will be greater. But next comes the great era of increasing personal gratification, with the result that the worker will still earn a sufficiency if, instead of working eight hours a day, he puts in only seven or even six.

“This moment signifies the rebirth of individuality, of the possibility of living for oneself outside the hours that serve material needs, and of devoting oneself to hobbies, cultural interests,

art, science, life in general, and the family.

“To this extent, then, socialism - our socialism - leads back to individuality, and with it to the strongest impetus to a personal, racially defined, and altogether universal human evolution.”

As the image above from the *New York Times* of August 20, 1934 shows, the people who were fortunate enough to live under National Socialism voted 9 to 1 in favor of Adolf Hitler and National Socialism in an internationally supervised vote! One key reason for this mass support of the people is due to the fact that National Socialism lifted the entire nation out of the worst economic depression known in history. This was accomplished primarily by breaking the stranglehold the Jews and the international banksters had on the German economy. As we are now entering a new economic depression which will probably be much worse than the one in the 1930s, we can look to National Socialism and the NSM to lift us out of it using the same principles as our National Socialist predecessors used so successfully!

Adolf Hitler and National Socialism pulled Germany and her people out of the depression by creating meaningful jobs for them. They also went the extra mile and made life a true joy for their people! Hitler loved and cared deeply for the average person. One practical way to make the life of an average worker better was to put the

ownership of an automobile within their range. To do this Hitler and the National Socialists helped design the Peoples' Car or Volkswagen. The image above shows Adolf Hitler, Ferdinand Porsche and National Socialist leaders looking at a model of the first VW Bug. Since Hitler and the Nazi leaders were real leaders and not politicians, the interests of the people really did come first! How different that is to our current sad situation with the self-serving cowardly politicians who make up the mainstream political parties around the world! It is truly time for National Socialism and the NSM!!!

Not only did National Socialism in Germany protect the average person from greedy politicians and swindlers, it also protected Nature, the environment and animals.

In 1935 the Nazis passed the Reich Nature Protection Act which set aside huge nature areas for protection from development, established the first of their kind air pollution laws and promoted sustainable forestry among other important environmental laws. You can see why this would cause many wealthy powerful people to hate them!

On November 24, 1933 the National Socialists passed the Reich Animal Protection Act which outlawed vivisection, (performing cutting and surgery on a live and awake animal) and kosher slaughter, (cutting the

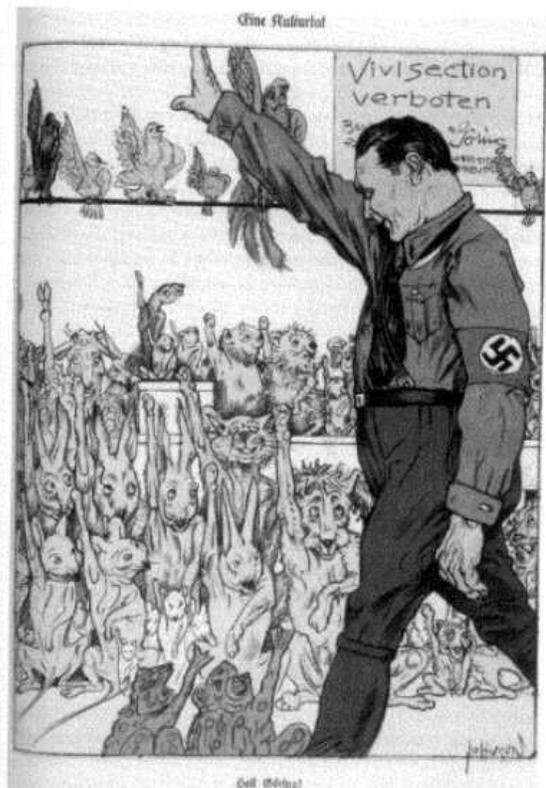

FIG. 5.2 "Heil Göring!" The lab animals of Germany saluting Hermann Göring for his order barring vivisection. The Reichsmarschall in August of 1933 announced an end to the "unbearable torture and suffering in animal experiments" and threatened to commit to concentration camps "those who still think they can treat animals as inanimate property." throat of an animal and letting it bleed to death) thus saving millions of animals from unnecessary pain and torture. Herman Goring was instrumental in the passing of this act. A cartoon of the day pictured above shows the thankful animals giving him the Nazi salute.

In addition to all the good the National Socialists did mentioned above, we should never forget the advancements they brought about in the war on cancer and for preventative medicine to help guarantee a healthy people. They were pioneers in protecting workers from the dangers of asbestos and educating people to the dangers of tobacco. The National Socialist Office of Public Health arranged free cancer screenings for everyone, rich and poor.² This was a big step in preventative health care and saved thousands of lives. It would also save thousands of lives if it was done today. It's a guarantee that once the NSM secures power either for the entire nation or in a smaller Balkanized White section of the U.S. and other places around the world, these people first practices will be established once again!

What is most important to National Socialists and the NSM?

Even though there are many important problems that National Socialism has proven it corrects, the primary driving "reason for being" of the National Socialist Movement and National Socialists can be summed up in the 14 Words: "***We must secure the existence of our people and a future for White children.***" Everything else pales in comparison to this one principle.

The 14 Words were coined by Aryan Warrior David Lane. David Lane was a member of [The Order](#), a White resistance group in the early and mid 1980s. Unlike the National Socialist Movement, The Order was an underground group of White Warriors founded by Robert Matthews who waged an armed struggle against the Zionist Occupied Government in the U.S. As America and the rest of what was once the White world continues to become more non-White, groups like The Order will probably become a fixture on the darkening landscape. However, following the rules of common sense, for security reasons aboveground people and groups like the NSM can never crossover to the underground groups and vice versa.

Why do you use the Swastika? Isn't that a hate symbol?

² Proctor, *The Nazi War on Cancer*, pp. 42-43.

The Swastika represents the White Race, just as the Star of David represents the Jewish Race. For millennium the Swastika was used by Aryans to represent their drive for progress and wellbeing. It can be traced back to ancient India when the Aryans ruled that portion of our planet and even to the Sumerians. Adolf Hitler and the National Socialists adopted it in the early 20th Century and the NSM carries on that proud tradition.

Hate is defined as “to dislike intensely or passionately.” If you love someone or something, you must hate that which will destroy what you love. It’s not just common sense; it’s a Law of Nature. For example, a farmer who loves his or her crops must hate and destroy the weeds that will kill those crops. Likewise, if you love your people and race, you must protect them from what will destroy them. Hating what will destroy them is natural and good and is the other side of the same coin of love. The Swastika represents for the White Race both sides of this progress producing Law of Nature.

What is the National Socialist Movement DOING For White People?

The NSM is the most active street oriented pro-White political organization in the U.S. and probably in the world!

A good example of this fact is the picture above right of an NSM Storm Trooper burning the Mexican flag at one of the many demonstrations the NSM has conducted to openly oppose the invasion of the U.S. taking place right now by millions of illegal aliens which is causing millions of American workers to lose their jobs. Unlike the politicians who either openly promote the invasion of the U.S., or those political whores who pretend to oppose it but fail to take any meaningful action to stop it and who’re too cowardly to speak of the racial realities at the root of the problem, the NSM makes it crystal clear what is at stake and what must be done to correct it.

The first step is to awaken White people the world over to their own racial identity and to give them a profound appreciation of who they are. This is a

huge undertaking! But it must be done and the NSM is doing everything in its power to do it! Conducting street demonstrations, marches and public rallies are all great ways to awaken and enable our racial family. As our Founder Adolf Hitler said, "And each demonstration not only won us new adherents, but above all made the others firm in their belief and filled them by suggestion with the kind of self-confidence without which success is not possible."

Since the [mainstream media is orchestrated by Jews](#) we are currently unable to use the mainstream media to awaken and educate White people. However, as we continue to grow, we will continue to develop our own media as we've already done with www.nsm88.org, NSM Records, etc.

What are the NSM's views on drug abuse?

The NSM is very much against drugs and those that sell this vile poisonous venom to our Aryan people. The National Socialist Movement is completely against the sale and use of illegal drugs (i.e. marihuana, cocaine, LSD, et al), because drugs destroy everything we stand for. They destroy not only the individual, but the family, and society and our Race as a whole.

Drugs are a menace for society and the world. We must fight to extinguish this threat, and let our children and grandchildren live in a world free of such things.

The NSM will fight drugs and drug dealers everywhere we find them!

WE HAVE DECLARED WAR ON DRUGS!

What are the NSM's views on gays?

First, we don't use euphemisms and distort the English language to be politically correct. We use the word homosexual, not gay.

National Socialism is based on reason and Nature, therefore we oppose homosexuality.

Looking at the anatomy of a man and a woman, it is obvious what Nature's intent is. You don't have to be a Nazi rocket scientist to figure this out! Homosexuals go strongly and directly against this vital plan and intent of Nature.

Homosexuals contribute nothing to the further survival of our race. Our children are being inundated with the false ideas that homosexuality is normal and acceptable. They see it out in the public, in their schools, and on the TV programs they watch. This can only serve to confuse innocent and impressionable minds.

The verdict is still out whether homosexuality is genetic or a choice. If it is genetic, that would make homosexuals sexually handicapped. If it is a choice, it demonstrates the sick and twisted and unnatural minds of homosexuals. Either way, it is a huge unnatural negative that is not worthy of our Aryan Race and progress!

How will the NSM get enough power to change things?

Every day it's less likely that being elected to office will work. Already, in the U.S., if you count the approximate 20 million non-White illegal aliens, etc., the percentage of Whites has fallen to around 65 percent. However, it is useful to run NSM candidates in political elections as a means of letting White people know we are here. The overwhelming vast majority of these White people are not racially aware and are under the influence of the anti-White mass media, the anti-White government and anti-White revealed religions which teach them that it is a crime and/or a sin to be racially aware/racist.

As the economy continues to worsen and more and more White people and their children feel the pain of doing without, they will start to ask questions and to turn their backs on the corrupt institutions and established liars they have followed for too long. As nations begin to balkanize at a faster rate, many of these people, the best of them, will turn to the NSM. It is very possible that as things deteriorate, Whites working and fighting through the NSM will be able to carve some territory out for themselves, their families and their Aryan people. The NSM will then be able to create and build a new National Socialist nation and White homeland for all White people.

What are the views of the NSM regarding child abuse and child pornography?

There is no reason in the entire universe to tolerate child molesters. All proven child molesters should be shot. To quote Adolf Hitler on this topic, "The authors of crimes against morality are as a rule recidivists – and they usually crown their career with some filthy misdeed. Why not wipe out these individuals at once?" Why not, indeed!

Regarding child pornography, the same holds true. Anyone who partakes in this sick and harmful activity should be shot on the spot! Our backward and unnatural current society does not have the natural instinct or common sense to do this. Currently, the best one can legally do is report any information regarding child pornography to the [CyberTipline of the National Center For Missing & Exploited Children](#).

I'm a 14 year old White youth. Can I join the NSM?

You must be 18 to join the NSM. However, White youth between the ages of 14 and 17 can join the Viking Youth Corps. [Click here for more information](#).

I'm a Christian and I have a friend who is a Wiccan. Can we both join the NSM? Are there restrictions for membership based on religion?

The NSM is strictly a political organization. It doesn't matter what religion, if any, you are. We have members from virtually all religious backgrounds with the exception of Judaism!

What will the NSM do to make the economy better?

In the U.S. we've suffered under a false economy since the establishment of the unconstitutional Federal Reserve. Under this Jew infected system, the Jews and bankers charge the U.S. for its own money through interest! Under the NSM we will abolish the Federal Reserve and have our money based on the quality of the goods produced by the nation. (For more on what the NSM will do, please read the [25 Points of American National Socialism](#)) Benjamin Franklin made it clear why this is the best financial system when he said in 1763, "In the Colonies we issue our own money. It is called Colonial Scrip. We issue it in proper proportion to the demands of trade and industry to make the products pass easily from the producers to the consumers. In this manner, creating for ourselves our own paper money, we control its purchasing power, and we have no interest to pay no one."

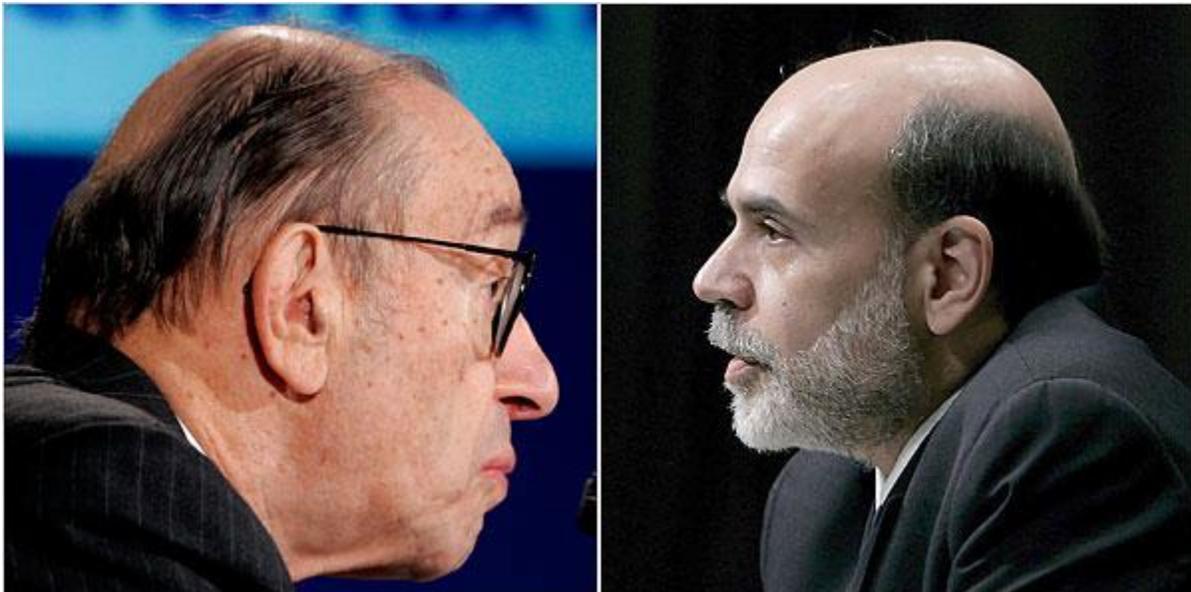

Adolf Hitler held the same view on money as Ben Franklin did. Hitler said, "Only the professors don't understand that the value of money depends on the goods behind that money."

The lie that a free market is what works best is seen for the lie it is by the over abundance of hard working people who don't have enough money to live a comfortable life. The idea of a "free market" is an unrealistic utopian

pipedream. In reality there are bad and greedy people who cheat and take advantage of others whenever they have a chance. This is a key reason for economic depressions. In a National Socialist government, these people are put into work camps, thus removing them from positions where they can do harm to the people and nation. As Adolf Hitler said, ". . . the essential cause of the stability of our currency was to be sought for in our concentration camps. The currency remains stable when the speculators are put under lock and key. I also had to make Schacht understand that excess profits must be removed from economic circulation."

The last part of the above quote, "excess profits must be removed from economic circulation", makes it clear that there is no room for greed in National Socialism. This is in direct conflict with the current Jew inspired worldview of today, [vocalized by the Jew Ivan Boesky](#), that greed is healthy.

Nothing makes the excessive power of the Jews more noticeable than the fact that Jews make up only two to three percent of the U.S. population yet they've had control of the U.S. economy/Federal Reserve every year since 1987! The two Jews who've run the Federal Reserve are pictured below. The Jew Alan Greenspan (on the left) was appointed and approved to run the Federal Reserve by the kosher sycophants known as politicians from 1987 through 2006. In February 2006 the race traitors/politicians appointed yet another Jew, Ben Shalom Bernanke (pictured on the right) to run the nation's economy! What are the chances that a race that makes up only two or three percent of the population would be appointed two consecutive times to run the nation's economy for over 20 years and counting???

The powerful Jew Greenspan is married to the media Jewess Andrea Mitchell pictured at left.

The unnatural power of the Jews desperately needs to be broken. Through dedication and lots of hard work, the National Socialist Movement will bring us to victory! Due to the uncompromising nature and reason based principles of

National Socialism, it is **ONLY** National Socialism that will succeed! When it is a fight for the very existence of our People and a future for White children, there is no other alternative! Victory or death!!!

If you want to take part in this fight for the lives and future of our People and children, join the National Socialist Movement! [Click here for our membership page!](#)
