

## Urgent Message From Burt Colucci – April 5, 2020

For many years now, we have been claiming that Communists have been pulling the strings of government officials with their money, threats and propaganda. On August 11–12, 2017, the entire world witnessed just how infested the Commonwealth of Virginia is with Communism.

In this message, I will provide you with pertinent facts to substantiate my claims and update you to the current situation involving the demise of our constitutional rights and privileges.

When most people think of Charlottesville and the events that took place that day, they think of James Alex Fields and his gray Dodge Charger crashing through a crowd of people. End of story. But that isn't the end of the story. There is more to the true story and how the denial of the truth is affecting every American without their knowledge or consent.

It has been confirmed by the Charlottesville Police Department, they were given a stand-down order by Michael Signer who was the mayor at that time. Presumably, Mr. Signer ordered the police department to stand down out of contempt for Judge Glen Conrad, Senior United States District Judge for the Western District of Virginia. Federal Judge Conrad ordered the rally at Lee Park could legally proceed with proper permits.

This decision enraged Mr. Signer, many of the local businesses and of course Antifa because they believe not all Americans have a First Amendment Right. Consequently, it was reported by many of the Charlottesville police officers that (at that time) Mayor Signer made the remark "let them fight". One would immediately think a person in an elected position of mayor would immediately be investigated and ultimately arrested. After all, he propagated an unlawful assembly of Antifa in the middle of the streets of Charlottesville. Worse, people were hurt and killed due to his stand-down order. For all Mr. Signer's irresponsible decisions, he was awarded the annual Levenson Family Defender of Democracy Award from the Anti-Defamation League in 2017. He was recognized by Forward Magazine in its "Forward 50" 2017 list of most influential Jewish leaders in America. He also received the Jerold L. Solvov Freedom Award from the Anti-Defamation League Midwest. To date, no known legal action has been taken against Mr. Signer in any way, shape or form.

Anyone that broke any laws in those streets on those days has already been criminally prosecuted. One would think justice has been served and that's the end. Now, we have an organization that is attempting to use the Federal Courts as pawns to dispense justice in a way that the criminal courts could not.

I would like to refer to the Integrity First for America (IFA) and their Sines vs. Kessler lawsuit. IFA's Roberta A. Kaplan has been allowed to openly accept donations/Credit Cards that exceed \$10,000,000 while other groups who are in opposition to the IFA's agenda are prohibited from accepting credit cards, PayPal or other electronic means of donations. This includes the National Socialist Movement which is discriminatory all by itself.

I personally have never been to Charlottesville or attended any of the events scheduled on August 11 and 12, 2017. I was not a member of the NSM at that time. Nonetheless, I have been served with a Federal Subpoena to give an 8-hour deposition and now they are seeking to convince the Federal Judge to Subpoena my electronic devices. This is the IFA's way to abolish our rights according to the Constitution of the United

States, namely the 4<sup>th</sup> Amendment. Many organizations and individuals are being persecuted at this time. These frivolous infringements on our rights to free speech, press and assembly immediately need to stop before our rights are gone completely.

My goal is not to ask for sympathy or recognition of the fight I am up against. I knew what I was undertaking when I started a new organization based on an old name and I fully intend to see that struggle through. My goal is to make all Americans aware of the fight that is going on to keep our Constitution in place. You have all seen the news and how our society is decaying. My question to you is will you turn away letting them shred our constitution word by word or help keep our Constitution as the doctrine of our country?

At this critical time for America, I would like to ask for your help. Once they take away our rights, yours will be next. We desperately need volunteers that are willing to help us fight this injustice. It doesn't matter if you agree or disagree with our beliefs, this is a fight for our Constitution. We are up against an army of lawyers and an organization with deep pockets. Finding legal representation is imperative. If you are an attorney or paralegal that can help us, please reach out to me. For others, please consider making a donation to our legal fund. Your effort to support the saving of our constitution is greatly appreciated – and needed at this time. Thank you.

Sincerely,

Burt Colucci
