

One of the most critical duties of an activist and member of the National Socialist Movement is to always put our best foot forward in order to allow our friends, neighbors, and fellow citizens to see the ideology of National Socialism exemplified in our lives.

A National Socialist is always on duty, acting as a public servant and ambassador for our Party. Everything we do in both public and private represents either a step forward or a step backward for our Revolution. We must always be on guard to never hamper these efforts.

The National Socialist Movement is implementing a new policy in regards to public statements and social media, guaranteeing that our leaders and members always act in the most professional way possible.

The new standards are as follows

***-All NSM members will refrain from participating in arguments or disputes among ourselves or with other White nationalists.*** Polite disagreements or discussions are an important part of our movement, but gossip and conflict can lead to disunity within our movement and it only aids the enemy. The primary tactic of the Federal government to injure political and social movements across the political spectrum as found in the COINTELPRO program is to work to divide that movement and turn it against itself. We reject this division and instead work to promote cooperation, fraternity, and understanding between fellow nationalists.

***-Party comrades are to download Signal and utilize it for text messages and calls between all White nationalists.***

***-Party comrades are to create and use a Protonmail account for emails between all White nationalists.***

***-Public statements on social media should not be easily confused as official Party statements.***

***-Racial slurs and hatred are not to be used under any circumstances.*** As National Socialists we are advocates for our community, this does not mean that we have anything but respect for other ethnic communities, religions, and cultures.

The policies of globalism such as mass immigration that have led to sexual violence against our women, the demographic decline of native European populations, job losses due to mass migration, or acts of terrorism by foreign populations within our borders are all things to be justifiably not only opposed to, but angry at; this however does not give license to attack other entire populations with vulgarity or hatred. We are the Party of solutions, not reaction.

On this topic, Commander George Lincoln Rockwell famously said that *"I am not out to persecute or hurt any man because of his race, he can't help what race he is. Each race has particular geniuses and particular faults. The White race has built White Western civilization and*

*we think the White race should dominate in that area.” We must live up to the example of Commander Rockwell by working to reclaim our own homelands, regain our sovereignty, and revitalize our culture, but to also dismiss reactionary racial hatred towards other peoples or beliefs in imperialism.*

***-All statements made on behalf of the organization should be approved by either Commander Schoep or a staff level official.***

***-Giving interviews to the media should only be done by those who are approved to do so by the national office.***

***-NSM members and supporters should never promote violence or illegal activity, under any circumstances. Any calls for, or outright illegal actions, will result in immediate dismissal from the National Socialist Movement.*** The National Socialist Movement believes that our worldview can win the battle of ideas, because it is based upon Truth and Natural Law.

While we believe in the legal right to self defense if attacked, we do not ever encourage conflict, violence, and least of all; illegal activity. The System relies primarily upon repression to hurt the nationalist movement, we will not play into their hands by giving up the moral high ground. We are a legal, peaceful, and political Movement.

***-Foul language should never be used in official statements, and refrain from being overwhelming during private statements or on social media.*** Here in the National Socialist Movement we are far from Puritan pilgrims in regards to language, many of our members are veterans from every branch of the service or come from a background where certain types of language is a part of life.

We do not plan to act as hall monitors for every word our comrades speak. We do, however, call for all of us to ensure we do not distract from our message or present ourselves in a negative light by an improper use of language.

***-Always be on guard for spelling errors or improper use of grammar in all public statements.*** None of us is perfect, but our direct engagement with the public and one another must be the best that it can be. Laziness or potential unequal educational opportunities are not an excuse to appear unprofessional. Mistakes that are found must be corrected immediately, and any and all official statements must be reviewed before publication.

***-We must focus on promoting a culture of respect in for all segments of our population. Both men and women are truly equal and liberated in our society and in the struggle for our survival.***

Adolf Hitler said on gender relations that men and women “*both must therefore mutually value and respect each other when they see that each performs the task that Nature and Providence have ordained.*”

This policy means being respectful towards one another, and to especially avoid attacks or demeaning traditional gender roles.

National Socialist Movement members are also called to reject the objectification of women through publishing, wearing, or sharing any form of crude, sexual, or pornographic materials.

Our enemy seeks to turn women and their bodies into a commodity to be used and abused, we wholly reject this policy and instead seek to lift up women to a true sense of modest and respected femininity and men to the position of once again becoming leaders, providers, and stewards of our families and nation.

Our cultural secession from Weimerica also means we must secede from its promoted views and culture while reinstating ourselves as the descendants of a noble and heroic people

*These policies go into effect immediately, violations of these policies can result in additional education on Party policies, official censure, and for especially egregious violations or repeated incidents these can lead to revocation of NSM membership.*

*It is of the utmost importance that we do not fall into slackness of duty or a misunderstanding of elements of the National Socialist ideology. All comrades are called to constantly learn and improve themselves for their sake, the sake of our Party, and the sake of our Revolution.*
