It is with great sorrow, and a heavy heart that I inform you of the loss of our Southwestern States Regional Director Jeff Hall. On May 1st, 2011, Jeff Hall was found murdered in his home in Riverside, California.

Jeff Hall was a loving father of five children, a family man, and a dedicated American patriot. Those of us whom had the honor to know, work with, or spend time with Jeff Hall know well what kind of person he was.

His children were his life, and Jeff’s spare time outside of family was spent with his extended family in the NSM. He spent countless volunteer hours on the California and Arizona Borders leading patrols in efforts to halt illegal immigration, organized rallies, meetings, and countless NSM events. Jeff was looked up to and respected by thousands of people. He was well liked in his community where he ran for office last year, attaining nearly 30% of the vote as an open National Socialist Candidate. He touched the lives of so many people, and was a tremendous inspiration to everyone around him. His energy and devotion to our folk and nation knew no bounds. Jeff Hall will be greatly missed by us all.

There is so much more that I would like to say, Jeff Hall was like a brother to me. In life he was a giant amongst men, constantly putting others before himself. A life cut short, your family, and the Party mourns this loss.

Thank you for all the memories Brother. We miss you. See you in Valhalla!
On April 15th, the National Socialist Movement held our 2011 National Meeting. With approximately 80 Party members in attendance along with a few respected guests, we started our dinner in a church hall. We had a couple men posted outside to watch over the parking lot and building. It is well known that the area, anarchists, and communist black block groups will attack cars and buildings, as well as women and children.

Just before the meeting was to begin, an armed group of about 30 or more masked anarchists launched an attack on our comrades. We beat them back in (legal) self defense. The commie scum attacked us with 2-by-4 boards, mace, clubs, knives, bricks, tree branches, glass bottles, and other weapons. The NSM was unarmed, with the exception of a few chairs and boards taken away from the scum in the brawl. True to form, the NSM did not back down and met the armed & masked degenerates in the street!

By the time the melee was done, we forced the commie scum to run away. The local people who had started coming out of their homes had called the police after seeing all the blood and fighting. A number of people were seriously injured on both sides, four of our men went to the hospital after being hit in the head or face with clubs or boards. Each one of those men checked out of the hospital and returned to finish the events.

It was an honor to fight alongside of these men, and everyone else who fought on our side. Myself, I was maced directly in my eyes (along with a couple of our guys whom were also sprayed) by the anarchists in the fight, but I still managed to beat down the guy who did it! [Note to self (fist-fighting in a business suit is not ideal.)

The men who had the worst injuries are the real heroes. They set aside self concern and went directly into the fray alongside of us. We have video of some of the violence that has
already been released. After the police arrived, they managed to round up a couple of the anarchists and held two of them on $50,000 bail for inciting a riot, as well as other charges.

It was clear to all that the NSM acted legally in self defense and did not start the violence. Our motto for such altercations is “Start nothing, Finish everything!” Thank you to all who stood in solidarity with us, including the older guys who I specifically asked NOT to come outside, and let us handle this. You guys have some serious heart!

After the battle with the anarchists, we went back into the church hall and finished the National Meeting as planned and scheduled. Excellent speeches were given, and it was a great event.

On April 16th, we formed up as planned and headed to the rally at the State Capitol. The enemies of free speech, and an assortment of groups such as the JDO, Black Panthers, ARA, Black Block, and other anti-white groups vowed they would stop us from our meeting and the rally.

They were beaten back at the meeting the night before, and did not stop the rally either. About 75 of our folk attended the rally, a number of people we kept back at the property of the after event in case it needed to be defended against the anti’s. The rally went off without issues, aside from the rain, and a couple anarchists who smashed windows downtown for no reason other than to break things and wreck an American city.

The after-party concluded the two-day event on private land where we had giant tents set up for all who participated to enjoy the BBQ, live music, and a swastika lighting at the end of the evening.

I would like to personally thank and commend Jason Hiecke and family for their countless hours of effort, planning, and work that goes into an event such as this. Also thank you to Keelan and Guilt Free Radio, Charles and the troops for being our frontline fighters, Duke and the security squad, everyone involved with NSM Media running our cameras, sound equipment, PA system, and websites. Congratulations to everyone promoted for your efforts over the past year. Thank you to Rick and Blake for setting things up. Also thanks to the guys who drove all the way from Arizona and California to back us up out East. There are many more people who deserve our thanks and salutes, you all know who you are, and so does your Party. The NSM’s frontline struggle in America once again sets the example.
I was sitting next to Sgt. Mike after going after my second helping of meatballs from the wonderful array of food that had been prepared at the banquet. Sgt. Mike, a big man, was already finished eating after just one trip and was daring me to go for a third.

“You’re off your diet this weekend...don’t be a wimp,” he edged me closer to going back three times for food.

I laughed and thought about the fact that I’d nearly made myself sick already. The days of travel had left me a little under-nourished. Drowsiness was actually starting to set in.

Just then Captain Wilson appeared in the doorway, “The reds...the antis are here! Let’s roll!”

I jumped up along with everyone around me and headed for the exit. “@#$% MOVE!” I shouted as I pushed through the crowd who were congesting the hall. Outside one could see about 30 or so communists, all masked, moving across the street.

Running out, I cursed at them and got close to their line yelling for their toughest to come out and fight me. Challenging people to one on one combat before the main battle begins is an old European tradition. One threw something and a scared looking small framed man rushed out and sprayed mace, which due to his cowardly half-approach, fell far short of me, the target.

Looking around, you could see these were all white people. The Black Panthers and Jewish groups love it when white boys fight their own battles. [For more information on this, Google “World War 2”...]

I spotted a few of the rich kids trying to dig projectiles out of a nearby garbage bin. I started moving towards them, also hoping to break the jaw of the mace-armed slip of a man who had moved in that direction as well.

That is when from the corner of my eye I saw the rest of the fight erupt, right in front of a passing car. It was on! I ran full out towards a bubbling fat man and nailed him solid in the temple. Commander Schoep came in right beside me and slammed a folding chair down on either assailant.

I heard it hit and heard one of them cry out. I stole a quick glance to my right to see the Commander catch a full blast of pepper spray in the face. By this time the others had sent the antis running back towards the end of the street. I took off after them down the sidewalk with our Florida state leader right behind me—lucky for me!

I was the next person to get hit with pepper spray and immediately blinded after another brief melee. Never had I neglected to wear goggles to every rally I have ever attended. Till now.

One of the antis jumped on my back, trying to take me down. Our Florida unit leader grabbed the communist and body-slammed him in my defense. I wish I could have seen it but there was no way I could get my eyes open. I felt something hit my face and knew it was time to get my vision back somehow. I tried holding one eye open but it was so blurry that I couldn’t make anything out.

Luckily, Sgt. Mike grabbed me by the arm and led me back towards the church. As the adrenaline wore down, I felt a sharp pain in my right hand. In the confusion, a typical mistake had been made and I’d landed a punch onto the top of someone’s head instead of the temple or the jaw as intended. This proved to be my only real injury. My fingers could barely move and I hoped I could get my vision back then a club in my hands, even if it was my left.

Someone shouted to get me to the bathroom. Someone else called back that the Commander was in the only bathroom, also trying to regain his sight. When he heard I was outside wounded and unable to see, he quickly moved outside and ordered the people around me to get me cleaned up. He was in worse shape than me being that the pepper spray was under his contacts, an extremely painful injury.

If I had known he was moving aside and giving up the sink, I would not let anyone offer me treatment. As if seeing him fighting out in front of his troops wasn’t enough, he was
insisting on us being seen to first! Leaders don’t have to step aside. A man with burning contacts shouldn’t have to step aside. Oddly, his doing so was predictable, if you have known him for very long.

Milk and water applied to my eyes finally allowed me to blink and begin to take in what all was going on around me. Nobody was out of commission, and though a few had been struck with objects after being outnumbered, everyone was once again in fighting shape.

Shouts of victory and triumph filled the hall! We’d beaten back the enemy at very little cost. It was well worth the honor gained.

Cops were starting to arrive on the scene. Apparently, blacks living across the street had called them after the battle had turned in our favor. It was good to see the blacks the communist so adore at least offering them that minimal amount of assistance.

The very first thing on my mind next was getting out of the neighborhood and away from the cops, being that I was one of the combatants. The police are never on our side regardless of what happened. Someone asked if I needed to go to the hospital and it sounded like a good idea. The more of us to go to the hospital, the better it would look when the rich kids with daddy’s lawyers started filing assault charges. I was placed in the ambulance by a pair of volunteer paramedics. These ladies were golden!

I found a new NSM member from Washington state was already inside. Without being told, he had grabbed a chair and rushed into the battle and continued fighting even after being hit twice in the head with a pipe wrench. We joked around and kept the EMTs laughing the whole way to the ER.

After getting some minor patchwork done, the police came to question us about a “white van.” We played dumb which was easy in this case since we didn’t know about anything about what they were talking about anyway. I speculated when the cops had gone that maybe the communists had attacked a van and been shot. One can wonder.

All of the hospital staff were very friendly until we left about 20 minutes later. A blonde nurse came out to show her ‘sympathies’ (and show off her loyalty to the Marxist system) by asking us to leave. We’d called a cab and informed her that they were stuck with us until it showed up. Let’s just hope that comment card gets lost in the mail.

We finally left and headed back to the hotel where a hero’s welcome was waiting for us. The meeting had continued and everyone but us had made it back on time. A night of good times awaited us!

What the communists accomplished was this: They lit a fire under the white nationalist movement in general, most notably the NSM. With as many armed people as the antis had brought, they should have put everyone one on the ground and out cold.

They didn’t do this once and were chased away. Running away or using anti-rape weapons in a fight hold no significance with an honorless bunch of spoiled gang of some rich man’s grown brats. Standing your ground and fighting off a larger force means a great deal to us.

Though it hurts to type, it all has to be said. Attacks like these strengthen our resolve. It flushes out hobbyist, social leaches and hangers-on. It reminds us that this is a warrior’s game that for the sake of our people can’t be lost.

In the end, I hope for many more events like these. Our strong won’t quit. Our brave won’t run. The ones that weren’t there to fight alongside us will be sure to be at the next meeting or get together. This puts people back into the gym or get them up and running before their workday starts. This is the reason you cut your hair short or trim your toenails. This is what causes you to stay up late at night reading about the battles of men like yourself until you wake up the next morning with the book still in your hands. This is what nature intended for us to do just as nature had intended for us all to be National Socialist.

And for all you young guys who jumped in, boys, it just gets easier every time. May Wotan reward all of us fighting men!
Just as our anti-White detractors are cataloging our efforts at increasing pro-white awareness and unity, NSM has decided to do the same...only in REVERSE. Originally, NSM Media tried to catalog anti-White hate-crimes. However, the effort soon proved too large. And so, we present two of the most egregious events.

On April 4, 2010, Eugene Terre’blanche, a well known South African White Nationalist leader, was hacked to death by two blacks with machetes on his farm. The Afrikaner Resistance Movement is claiming the murder was racially motivated. Terre’blanche founded the AWB in 1970, and became controversial by opposing the end of apartheid in the 1990s. Terre’blanche had been advocating Afrikaner secession from South Africa, the so-called multicultural “Rainbow Nation.” (This has been a rallying point for NSM Britannia, because they are concerned about similar conditions becoming more prevalence in their home countries.)

On April 15, 2011, members of the Anti Racist Action (also known as ‘Antifa’) forcibly entered a National Socialist Movement national meeting that was being held in a church in Bordentown, New Jersey. Their ‘calling card’ was a brick hurled through the building’s window. Not wanting to spoil the sanctity of the church with violence, NSM SS stormtroopers (handpicked security force members) took the potential invasion outside as an attempt at peaceful confrontation. They were rewarded by lacerations from hurled projectiles. Because the event was incited on the internet in advance, the incident was investigated as possible domestic terrorism.

The common denominator in both of these tragic acts seems to be participation by neo-Marxists. This is a relatively new descriptive term that tends to cover those who are against the goals and activities of National Socialists (especially those of us who are White) around the world, and happen to have the philosophy and borrow tactics from Communists, anarchists, and other similar-minded groups.
THE ARYAN MENTALITY By Comrade Zane

I would like to address the real “Aryan Mentality,” for even some comrades seem to forget what we stand for. We are Aryans, so we MUST act accordingly. But, you are NOT Aryan at birth.

Yes, you have the traits and blood to be a member of the noble race, but you must be noble. Would you consider a “Wigger” to be Aryan? Yes, he might have our same blood, but he does not have the traits or the true mentality of an Aryan. Well what makes us Aryan then? It is our mental character that makes us Aryan -- our willingness for selfless service, our willingness to die for a comrade...our love, passion, and our honor. We are the noblest of races, and also the most superior. But we do not just have technological superiority over the other races, it’s our souls, and our values that make us Aryan.

We created modern culture with blood, sweat, and tears. And our ancestors were even more selfless when founding this country to make a better place for future generations. All of our technological and cultural advances over the years were always for the betterment of the next generation. That is what makes us Aryan, our planning for the future and our children.

So we National Socialists, must conduct ourselves in that selfless, honorable, and noble fashion that our race has been doing for centuries. We must always realize that while we are in the face of the enemy. We must fight the enemy with honor, nobility, and bravery. But, we must not become our enemy, who attacks with pointless violence, lies and slander.

We must remember HERITAGE NOT HATE! We are not neo-Bolsheviks, or antifa who uses street terror and violence to attack their enemy. We are smarter than our enemy, so we must use our superior intelligence and our innate character against them.

When we march, we must be disciplined. We must show how real Aryan conduct is. There should NEVER be a reason for unnecessary violence. The reason for this, is that our Movement is based on love for our race, NOT the hate of others.

We should never be side tracked on other races, without first thinking of ways to improve our own. We, National Socialists, love our race, cherish it, and will die to keep it pure. We do not hate other races just to hate them. We cannot even say we hate them, for why do we? We are just trying to live by Natural Order, which is preserving our own strong species.

We as National Socialist must realize that our number one enemy is the Jew. All of the other inferior races that are in our country are not intelligent enough to direct the destruction of our race. They are just pawns in the Jews evil game of financial and social chess. Many of
them coldheartedly, calculatedly, think of sly ways to destroy our race one by one, one lie after another. We have seen especially in the Madoff’s out there. We must be careful with the Jew. However, our distrust should not get the better of us.

The Jew often causes anger in us, for they are the director of our destruction. But the Jew wants us to attack him with hate, and violence, so when we do he can show the world how “bad and hateful,” we are.

Instead, we must continue to band together to become one, united with nobility, honor, love, and passion and destroy the will of our enemy. Our best ally is our Aryan mentality and character. We have the capabilities to become great, and we are the strongest race on planet! But we must reach out to others of our race who harbor the characteristics to be great, and the willingness to fight, but haven’t found our movement. We must clear up all the lies about our movement and show the world our love and passion. We need to unite our brothers and sisters, so together, they can see the Aryan Mentality!

NSM’S RECLAIM THE SOUTHWEST: LAS VEGAS, NV
Saturday, June 25th, 2011
SS Sgt. Joshua Davenport - NSM Unit Leader NV

On Saturday, June 25th. NSM members from Arizona, California, Las Vegas and Utah, along with Supporters, protested Illegal day laborers at the Star Nursery on Eastern Avenue. When we arrived a group of eight to ten Illegals were at the Nursery looking for work, but moved rather quickly across the street to the Circle K gas station. With NSM and American flags waving in the wind we received cheers, salutes, and thumbs up from many passing motorists whom were in support of our operation. Toward the end of the rally a few Anti’s showed up across the street, but were quickly dispersed when embarrassed on camera. All in all, the rally was a Complete SUCCESS.
A new memorial on the Washington Mall opened honoring Dr. Martin Luther King, Jr. Reverend King has been credited with motivating the mostly non-violent protests that supposedly brought about much of the racial ‘openness’ that is a hallmark of the bizarre 1960’s. However, that decade has been proven not exactly to have been as they have been remembered.

While the 1960’s did evidence social exploration, this growth came at a cost. Minorities, especially blacks, began to find violence left a more lasting impression in the minds of White Americans. However, like some Hispanic leaders today, some black leaders then started to cheat people...even there own. That’s why a memorial to Dr. King is anywhere from questionable, to ludicrous. Unfortunately, this predominantly negative range of estimation is based on some unfortunately plausible allegations.

The allegations against Dr. Martin Luther King, Jr. include his being a Communist. Regrettably for today’s multiculturalists, if this were to be proven true, it would tie together many of the Communist motivations of blacks towards the violence some of them have committed during that decade. In fact, it might lend credence towards the theory that at one time, Russian and other Communist-bloc countries wanted to create unsettling social confusion and unrest. All the better to take over America and the world. But, that’s another expose!

Other allegations regarding character issues are as disturbing, perhaps even more so. One time, Reverend King asked nuns to participate in a march for equal rights. Since then, there has been some evidence to suggest that these ‘nuns’ were actually prostitutes hired by American Communist associates of King. Horrifically, some of these women were also alleged ‘associates’ of King himself! Another character-based allegation perhaps even overshadows the possibility of ‘ladies of the evening’ masquerading as women ‘of the cloth.’ Smatterings of academic scholars have had the courage to question the doctoral dissertation of King. Claiming possible scatterings of plagiarism, the ‘genius’ of King is thought to by some to be more a ‘dream’ than honest intellectual labor.

Even if none of this were nothing more than ill-conceived speculation, one question remains: Why put a monument to a ‘hero with questions’ in America’s capitol? And IF the Reverend Dr. Martin Luther King, Jr. is one day found to be an academic charlatan who played the field during marriage with far left-leaning female ‘comrades,’ can his quest for nonviolence social change ever be looked at in the same way? For many whites, we would not be able to look at his monument with out cracking at least some sort of smile.
One of the most important lessons we have to learn as White people is that our foes will attempt to lessen the importance of our issues by using a variety of techniques. One of these key issues centers around anti-White racism, which ironically used to be called, ‘reverse-racism.’ But before I discuss this, you have to wonder when someone who writes about such problems works for an institution known as the Center for Social Cohesion. Kind of sounds like the Ministry of Love in George Orwell’s "1984," doesn’t it? And, WHO exactly pays for this?

Well, that’s what I was thinking when I read a My Turn column in the Arizona Republic recently by Gregory Rodriguez, the Executive Director of the Center for Social Cohesion at Arizona State University. In his article entitled, “Whites’ perception of bias a concern for U.S. future,” he cited a May article in the Wall Street Journal. According to Rodriguez, “…Barack Obama’s election...might one day be seen...as the symbolic moment all Americans became minorities.”

Worse yet, the Wall Street Journal article from which Rodriguez found that quote actually was a showplace for the now-controversial results of a Harvard Business School survey. The survey asked Blacks and Whites felt each group was “the target of discrimination from the 1950s to the 2000s.” “White respondents also saw anti-Black bias decline through the decades, but even more dramatically than blacks did...a ‘complete reversal’ in Whites' perception of racism. [And], by the 2000s, White considered anti-White bias to be a greater social problem than anti-Black bias.” Could this be possible?

But, while Rodriguez reports the Harvard conclusions that “from employment to police treatment, loan rates to educate, -- statistics continue to indicate drastically poorer outcomes for Black that White Americans.’ Instead, they figure this historic flip-flop is not about how objective conditions but how Whites conceptualize bias.”

I forget who it was, but a great thinker once said that ‘Perception is EVERYTHING.’ Another equally great thinker once said that even though someone’s perception of the world is ‘whacked out,’ it is THERE perception, and very valid for THEM.

Naturally in the article, Rodriguez tried to minimize the validity of those Americans who feel the burden of increasing anti-White prejudice. But the he sounded worried. “But the failure of...the majority group to look out for the greater good, as opposed to parochial interests, leaves a vacuum at the center of U.S. life...Forget the melting pot...how we balance diversity and unity is becoming the fighting cage.”

It is time that we Whites no longer remain the ‘silent majority’ of past decades, but continue to legally bring forth OUR perceptions of inequality. For with anti-White inequalities emerging, there can be no ultimate ‘social cohesion,’ with or without some delightfully high-and-and-mighty-sounding ‘Center’ to moderate the discussion or the efforts!

Already, there are a growing number of articles in the media about the Harvard report, the Wall Street Journal article, and even some about Rodriguez’s response. The concern, Mr. Rodriguez, is not in the research, but within the honest hearts and minds of White people wherever we may be!

RACISM A Politically Correct Definition
(BROUGHT TO US BY DAVID Q.)

http://vandal.christogenea.org/2011/05/29/racism-a-politically-correct-definition/

1. Any attempt by members of the white race to stop an illegal immigrant invasion and takeover of their nations, whether by word or deed.
2. Ideology in which whites object to being made third-class slaves in the countries their own ancestors founded.
3. Any words spoken by a white person that fails to venerate and praise non-white persons as being culturally superior and ethnically unique.
4. A belief system in which whites fail to hate their own race, usually accompanied by failure of whites to worship non-whites and failure to provide free money, medical care, and pretty young white breeding partners for non-whites.
5. A sick and twisted belief system in which evil whites believe that they have just as much right to preserve their race and culture as the other races.
6. Failure of the white race to submit to their own extermination and displacement from their own nations.
7. Any attempt by members of the white race to stop non-whites from gang-raping or otherwise despoiling and assaulting young white women.

NOTE: Racism can only be committed by whites. When Negroes or other nationalities murder white men and women, these acts are generally not seen as being racist, but are seen as vindication of past negative actions by whites. What is truly racist is for whites to dare to oppose the murder and enslavement of their own race.]

The Wrath of the Awakened Saxon By RUDYARD KIPLING

It was not part of their blood,
It came to them very late,
With long arrears to make good,
When the Saxon began to hate.

They were not easily moved,
They were icy — willing to wait
Till every count should be proved,
Ere the Saxon began to hate.

Their voices were even and low.
Their eyes were level and straight.
There was neither sign nor show
When the Saxon began to hate.

It was not preached to the crowd.
It was not taught by the state.
No man spoke it aloud
When the Saxon began to hate.

It was not suddenly bred.
It will not swiftly abate.
Through the chilled years ahead,
When Time shall count from the date
That the Saxon began to hate.
NSM Britannia calls for the establishment of a Boer Nation for whites only.
This is only way that the Boervolk can live in peace.

Who is the Boer Nation? The Boer are descended mainly from Dutch, Flemish and Frisian Calvinist as well as French Huguenot and German Protestants who first arrived in the Cape of Good Hope during 1652 – 1795. Beginning in 1835 the Great Trek began (mainly from the eastern Cape) as a result of British colonialism and constant border wars. The Voortrekkers were those Boers who left the Cape en masse in a series of large-scale migrations.

In the late 19th century, in order to defend their internationally recognized independent countries, the republics of the Transvaal (the Zuid-Afrikaansche Republiek, or ZAR) and the Orange Free State (OFS), annexation by the British Crown, they had to fight two Anglo-Boer wars. During the last Anglo-Boer war, 1899-1902, 26,000 women and children perished in the British concentration camps.

The Boer nation is well known for their strong nationalistic characteristics. Their nationalism was born of hundreds of years of fighting against imperialism, a continuing struggle for independence battling mainly British expansion into central South Africa, as well as the harsh African climate and a strong sense of nationhood.

What is happening?

At the beginning of the decade, there were 40,000 Boer farmers in South Africa. Since the ANC came to power in 1994 there have been 3,037 Boer murdered in a racial genocide and more than 20,000 armed attacks perpetrated by groups of militant, young Black racists on commercial Boer farmers.

The killing shows savagery and brutality as most are tortured and die slowly and in agony yet in many of the murders, no property is stolen. Boers are often tortured or raped first, boiling water forced down heir throats, tendons cut, burnings, and personal humiliations. This shows a savage, uncivilized hatred for fellow humans that we cannot comprehend. But the authorities and international media pass it off as “crime” related murder story like it’s no big deal. These ongoing-armed sieges targeting Boer families are also depopulating the countryside of food-producers.

The number of food-producing commercial farms in South Africa has dropped from 85,000 in 1994 to a mere 11,500 in 2008, according to SA tax records. These things are little reported in the West because the liberal-left media fully support the ANC and for the realities to be broadcasted by our media would demonstrate the real facts of African rule and destroy the unrealistic ideology of racial equality that they desperately need to believe. The ANC leadership support this Genocide, Nelson Mandela sang the kill the Boer the song in own language in front of the world media then has audacity goes on about peace in English.

Nelson Mandela advocating the murder of White Farmers/The Boer
Julius Malema ANC youth leader, according to the Sowetan, led students at the University of Johannesburg in a song with the words: "Shoot the boere [farmers], they are rapists". After this Eugene Terre’Blanche AWB Leader/Boer Civil Rights Activist was murdered by two cowardly black youths whilst he was sleeping this was allegedly over money but a lot people consider this to be a state murder because Mr Terre’Blanche stood against the communist ANC.

On April 17th in Sweden there was a March to remember Eugene Terre’Blanche & the victims of the Boer genocide and stand against the politicians and media that let this genocide go ahead unabated. NSM Britannia took part in a similar March on the 15th May 2010 in Central London we marched from Piccadilly Square to South Africa House in Trafalgar Square. There was approximately three to four hundred in attendance; it was a silent march to remember to victims. When we got to South Africa House tributes to victims and placards, etc where left at the doors, then there was a speech by the organizer, after which we dispersed.

“This is a heartbreak land with a heartbreak history. But you are the owners. You’re the boss of your house, you farm and huge areas of South Africa and your absolute inalienable property. This is the property of a group of whites, of Boers, joined in a land with its own title. You are the owner of this land. You own it.”

UK Riots – Filthy Tide of Shame
By Cpl Will/NSM Britannia

Statistics identify Great Britain as having the fastest growing and largest number of mixed race marriages within the Western World. This insight is indeed shocking, alarming and degrading for White people - These are the cold hard facts we are faced with. Is it any wonder that White people are up in arms and angry with the way things are in Great Britain? We feel threatened and outnumbered with the Filthy Tide of Shame engulfing the British way of life.

Mixed race marriages breed offspring of crime and black gang culture - We have now seen the results of this with the recent UK riots. These black gangs are responsible for a trail of destruction, violence, robbery and arson. However, the blame does not end now and here with the rioting These problems stem from years of British Government mishandling of the immigration situation and a long line of ridiculous policy - Adopting soft option and a too free
and easy attitude. In other words a policy of something for nothing - All are welcome here it seems!

Let me tell the British Government, "The Buck Stops here regards mass immigration." Prime Minister Cameron and all Politicians are 'lying' by claiming they will slash immigration. How dare William Hague MP announce today the UK riots remind us of the best and worst of society - I would say to Mr. Hague there is no Best in any of this - Rather the only word that comes to mind is Worst. It is not only your Government economic backdrop policy ruining our country – It’s the immigration backdrop policy blighting and ruining our country that we have to worry of too - As if we don’t already have enough on our plates to deal with. Westminster your policies are failing White people badly - You know it and we know it too. You cannot expect us to put up with it for much longer - In fact we are not prepared to put up with it come to that.

Britain was placed in a state of panic and riot earlier this year. Many principle Cities and Towns were affected.

NSM Britannia visited Birmingham to see the trail of damage and destruction following the rioting - Our findings were so shocking that we compiled an interview and recorded a short video. NSM Britannia also visited the City of London in light of the riots. The general feedback from members of the public is one of outrage and shock. It is quite apparent that many feel the riots are the actions of black gangs - There is no smoke without fire.

Personally, I feel its just a question of time before White people react to what has happened. By react, I mean take a stance against the present Government, not to mention successive Governments that have allowed the floodgates to open wide and thus the problem of immigration that we are faced with today.

In conclusion, we know full well and have identified black gangs as those responsible for the the UK riots - There is no doubt of this whatsoever. It is now time for the Government to open their eyes to this. You have allowed this to happen and its time that you are reminded of it! Finally, I refer to the famous Enoch Powell speech of years ago at Birmingham - Enoch Powell Forsees River of Blood. Set aside his political party. In his speech Enoch Powell said Britain must be mad to allow the inflow of some 50,000 dependants of immigrants every year. It was like watching a nation "busily engaged in heaping up its own funeral pyre." On leaving a man approached Mr. Powell as he went to his waiting car - “Well done, Mr. Powell, what you said needed to be said.”

The words of Enoch Powell have come true!!

HAIL VICTORY!!
Five States Drop The Hammer On ‘Wetbacks’ (ActforAmerica)

HUGE VICTORIES in the States this week! Congress may be out of session, but what a few weeks it’s been at the state level!!!

In Indiana, the House and Senate completed work on an E-Verify bill late on Friday night. The bill requires state agencies and contractors to use E-Verify and also requires private businesses to use E-Verify if they want to deduct employee expenses from their state income taxes. In Alabama, both chambers have passed mandatory E-Verify legislation and were expected to work on a compromise bill before the devastating tornadoes caused the legislative session to be temporarily suspended.

In Montana, Gov. Schweitzer signed a bill toughening the state’s requirements for obtaining a driver’s license or state issued ID. Applicants will now have to show proof of citizenship, and driver’s licenses from other states are excluded as a form of proof. The new law also requires anyone applying for state services to be verified through the Systematic Alien Verification for Entitlements program.

In Colorado, a House Committee defeated a proposal that would extend in-state tuition benefits to illegal aliens who attended high school for at least three years and hold a diploma or GED. The bill was defeated for the fifth consecutive year.
The 3rd of June after almost eight 8 years from the first arrest four Spanish comrades were acquitted of the "crimes" they were accused for by the Spanish Supreme Court. They were the owner of the "Kalki" bookshop, the leader and a member of the cultural association ‘Círculo de Estudios Indoeuropeos’ (Circle of Indo-European Studies), and the owner of the book editor company "Ediciones Nueva República" (New Republic Editions).

All were condemned by a regional court to sentences that range till three years of prison for spreading publications that minimize the so called Holocaust, promoted the III Reich and talked about the discrimination of blacks and homosexuals, and for being part of an illegal association with a paramilitary section.

Propagating neo-Nazi ideas is not a crime if they are not used to incite violence, Spain’s Supreme Court ruled. The court acquitted four neo-Nazis who had appealed against a three-and-a-half year prison sentence imposed by a lower court. The four, who had a far-right bookshop and publishing house in Barcelona, were charged with advocating genocide and belonging to an illegal association. Neo-Nazi ideas ‘deserved a clear rejection’ and should not be propagated by the authorities, but freedom of expression also applied to ‘offensive and unpopular’ material, the court said. Neo-Nazi ideas were illegal only when they clearly risked ‘creating a hostile climate’ which could lead to violence, the court said.

The Supreme Court stated that the Spanish Constitution "do not forbid ideologies" or the "extremis ideas" and that "the ideas, as such, must not be prosecuted" in spite of being, like in this case "abominable". "The tolerance with all kind of ideas, that it is imposed by the freedom of ideology and speech does not mean acceptance or comprehension, only that the ideas, as such, must not be criminally prosecuted."

This sentence was also based in previous sentences of the Constitutional Court that said that "At the shelter of the freedom of speech all ideas have a place, even if they are dangerous of wrong, even the ones that attack the democratic system. The Constitution protects also to the persons that deny the Constitution"

A little background of the case

The 25 of May of 2004 three members of the cultural association ‘Círculo de Estudios Indoeuropeos’ (Circle of Indoeuropean Studies) were arrested in Spain, in the region of Cataluña, by the regional police.

The C.E.I was a legal cultural association, inscribed in the registry of associations of the Spanish Home Office / Department of the Interior, and all their publications and magazines had ISBN / legal deposit. They had delegations in the regions of Cataluña, Madrid, Andalucía, Valencia, Guadalajara, Asturias, and also in México.

They were accused of forming and illegal association for the distribution of material that incites to the discrimination, the hate and violence against groups for racial motivations and for the negation of the Jewish holocaust; justification of the genocide; for committing offences against the exercise of the fundamental rights and public liberties, and against the international community.

A section of CEI was called ‘the Order’, but was not a combat group or related with anything violent, they were focused in the spiritual aspects of the NS. Anyway, as they used uniforms, they had ranks, and hierarchy, the police have considered that they were an “illegal paramilitary association, organized in combat units with the aim of the active resistance against the system, including the use of weapons.”

This was completely false, this section was focused in the cultural fight, and the unique weapons they have found are daggers, knifes, swords and a Co2 gun, not in the locals of CEI but in the houses of the comrades arrested. So, for being a ‘paramilitary’ group, they were a quite strange one, because the reality is that they didn’t do any kind of fight / combat training, they didn’t practice with or had any kind of fire weapons, their chief has more than 60 years, and their most dangerous activities
were excursions and marches in the mountains.

The real aim of the 'Circulo de Estudios Indooveroeos' was to preserve the legacy and ideas of the NS, but without any purpose of forming a political party, or to take part in the democratic elections, or to arrive to the power by the use of force. They tried always to respect the Spanish law, but without having fear to be situated near the border of the law. A prove of that is that they decided to host their website in a Spanish server, to be subjected to the Spanish laws.

The 27 of May of 2004, the three comrades got the freedom with charges, and one of them was released on bail of 3.000 Euros.

A huge quantity of material was confiscated, including flags, books, posters, magazines, stickers, uniforms, armbands, pins, helmets, videos, CD's, swords, SS daggers, and even personal objects of this comrades.

After this attack to the freedom of thinking of the human being, after this outrage to comrades that have never been involved in violent acts and have only tried defend our white race and our ideals the Spanish NS's could not stand quiet, and diverse groups are preparing an Unitarian NS demonstration in the streets of Barcelona.

Even though the freedom of ideology and speech to not cover under their protection the insult against groups, or the generation of hostility against them, something forbidden by the Spanish Penal Code. Therefore in this sentence they say for first time how must be this "offences" be interpreted. They say that "It is not enough to spread doctrines that justify the offence of Genocide or that excuse it. It is necessary that the diffusion constitutes a direct incitement to the commission or that could create to the danger of committing specific acts of discrimination, hate, violence against groups or the members of groups...It is not only just the diffusion, but the diffusion in circumstances of creating a real danger."

"In this case none of the accused made any act of promotion, public defense, incitation about the doctrine of the books they sold, neither recommended to put them in practice." The accused proved that the books they sold could be bought in other libraries and they were even in the National Library, where any citizen could ask for them and read it.

We congratulate for this decision of the Supreme Court, and now after many years of paying lawyers, of business closed, and work stopped by the denounces of SOS Racism, Amical de Mauthausen, and the Jewish Community of Barcelona this comrades are finally FREE !!

Some “chosen people” are not very happy with this sentence: Spanish Jews outraged at acquittal of neo-Nazis by High Court

The Jewish Community Federation of Spain (FCJE) has strongly criticized the decision by the High Court to quash a lower court's decision which had found four persons linked to the now-defunct Kalki bookshop in Barcelona guilty of incitement to hatred and anti-Semitism. The four were convicted in 2009 by a Barcelona court and sentenced to prison terms of up to three-and-a-half years. The High Court in Madrid now ruled that the men could be found guilty only if they had incited people to commit Nazi-type crimes. It said the Spanish Constitution did not prohibit ideologies, no matter how repulsive they might be.

"We Jews are very worried that the Spanish judiciary, which in certain situations shows a lot of sensitivity, does not consider the sale of books in which the Holocaust is denied and racism propagated an offence banned by our laws," the umbrella body of Spanish Jewry said in a statement. CJE voiced its support for proposals to amend and clarify laws in order to prohibit any activities that incite to hatred based on religious, ethnic and related criteria - including the public denial of the Holocaust - as is required by a European Union directive which Spain has yet to implement.

Israel also strongly attacked the High Court ruling. Its Embassy in Madrid said in a statement: "Israel believes that this decision gives support to racist violence and shows a lack of historic knowledge." It added that the ruling was reason for "sadness and concern."

After Action Report from West Allis/Milwaukee Wisconsin
Staff Sgt. Harriet
NSM Region 9 Coordinator/NSM WI State Director

The event went extremely well with the only exception being what seemed like never ending rain. Approximately 75 of our Folk showed up, along with many unidentified White citizens from the local community who stood in the audience to hear the message and attend in solidarity. I will paste a few of the e-mails from supporters minus their names for security reasons at the end of this report. We have been flooded with emails and phone calls of support from the local community both before and after this event.

The credit for a job well done goes to NSM WI whom have spent a lot of time and energy getting this event organized. Thanks to everyone whom participated, spoke, drove, filmed, and had any part in the event. We also salute the local Skins who pushed their way through the communist mobs to get to our area to stand alongside of us, and our Comrades in the local Motorcycle Clubs that showed up in solidarity and stood in the audience. Same goes for the Skinheads and local White men and women that stood in the audience, many of whom were surrounded by screaming mobs of angry blacks and/or communist activists. The number of supporters in the audience in Wisconsin was stronger than any media agency has reported, and some of these brave people can be seen in videos on YouTube. We would also like to thank all of the speakers from the NSM, along with Art Jones of the American First Committee, Mike Delaney of Prothink.org, Pastor Eli, and everyone else, if we listed you all by name I would be writing this after action report for another day. You know who you are, and we salute you!

We arrived at City Hall in West Allis to protest in defense of White America, and against the ongoing racial attacks by black flash mobs that has been going on around the Nation. We discovered City Hall with its windows boarded up like they were prepared for a full scale riot. We went in to set up the PA system which was one of the loudest systems we have used thus far. We unfurled our banners, along with NSM and various American Flags, and began the speeches by 2:30. I pointed out during my speech that we could see our opposition openly flying Soviet Communist Flags, the Zionist flag of Occupied Palestine was also prominently displayed by our opposition, along with the usual vulgar and hateful picket signs we see our opposition holding around the Nation. Later several people mentioned to me that out of the mob of degenerates that opposed us, NOT ONE of them held an American flag, only the NSM and our allies had American flags, not one was seen amongst the entire opposition who stood instead under Zionist and soviet/commie banners. Our opposition truly stood out in the open under their chosen banners, yet the system media did not make mention of these obvious differences between the so-called peace activists and those Patriots whom stood in solidarity with us in defense of White America.

Saturday, September 03rd, 2011 about 75 members of the National Socialist Movement, racialists, and local West Allis citizens joined together in defense of the White victims that have been attacked at the Wisconsin State Fair. The two main focuses for our rally was to address the double standards of the Federal hate crime laws and the anti-white violence that has spread all across this Nation.
We battled the rain and got our speakers on the way starting with Commander Schoep. I must say this was the most passionate speech I have seen thus far, and hope the motivation continues! We were graced as well by Mr. Mike Delaney from Prothink.org who never ceases to amaze us with his extensive knowledge on the injustices to our People. Guest speaker Art Jones who ran for Milwaukee Mayor in 1976 gave a passionate speech directed towards our Zionist enemies. Upon closing, I just had to say my piece. It felt good to address Mayor Dan Devine who stood on the side of the Communists and Zionists during our rally and said we were not welcome. Residents of HIS city asked for our help and we were glad to oblige!

In traditional fashion, NSM is not all work and no play. After a brief break to get freshened up after two hours in the rain, we headed to my favorite local karaoke bar. We had a great time even though only one of our brave men had the you-know-what to sing!

I honestly believe based on the dozens of e-mails and phone calls both the Commander and myself have received, that this rally has changed some things for our Cause. While all of these black on white hate crimes and black flash mob attacks have been occurring for some time, WE were the only ones willing to stand up publicly against it. The press was not as biased as we have seen in the past and when the Milwaukee Rally DVD is released soon, you can judge for yourself. We had a lot of local support standing with us last weekend and even more in the crowd.

Before I sign off, I would like to extend some ‘Thank You’s” to those who made this rally such as success. To Art Jones, thank you for the banners that said “Justice for White Victims” and “Prosecute Black Hate Crimes”. To SS Lt. Duke, thank you for providing our security. To Cpl. Paul of WI, thank you for gathering the local troops who needed transportation. To Mike Delaney, thank you for transportation assistance among everything else. To Renee and Prospect Darla, thank you for manning the home front while I had the Press Conference to get to. To Pastor James, thank you for bringing the loudest sound system we ever had!
ADOLF HITLER, MUNICH, 9 JANUARY 1927, ICH KAMPF, P. 124

Comrade, never forget that you are an exponent and representative of the National Socialist Movement and our Weltanschauung (worldview). The stranger will form his opinion about the Movement according to the impression he gets from you. Therefore, be a National Socialist in all your actions, in everything you do and leave undone! For others, be an example of courage, discipline and devotion.

As a man, be diligent, industrious and modest. Treat your subordinates like fellow nationals and not like pack animals. Do not regard them as objects to be exploited but as fellow-fighters and colleagues in or nationwide fight for existence. Never treat them in a way in which you, as a German and National Socialist, would not want to be treated yourself. Always remember that you are not a slave master but a leader and never forget what they owe to you, and what you owe to them.

In all you do, act as if you carry the future of the entire nation on your shoulders. Never expect from others what you are not ready to give and do yourself, and always be an example for your comrades.

As a leader, be responsible in executing your duties and be determined in giving instructions. Treat your subordinates well and be helpful. Never be narrow-minded in your opinions on the frailty of human nature. Realize other people’s needs quickly and be modest in your own! Never get drunk!

Do your duties for the Movement and always keep in mind that the greatest achievements can only be accomplished by men who are willing to submit their own ego to more important common necessities and to common welfare. In everything you do, you should give your fellow nationals and comrades an example of what you would like them to be. Look upon the last one of your fellow nationals as someone who shares your blood, someone you are inseparably tied up with on this earth by destiny. Therefore, estimate the last German street-cleaner higher than the King of a foreign nation.

Never forget that for a nation freedom is the greatest good in the world. Without freedom there is no life and the loss of freedom cannot be compensated with speeches or labor, but only with a fight full of sacrifices. Remember that this fight for freedom can never be led by a social class but only by a nation! It is the task of your Movement to transcend all social classes and to form a nation that is able and ready to achieve the very best. If you are fighting for the National [Socialist Movement]…you are fighting for your people.
Interview with ‘Russian Nazi’ By Kevin James

**NSM MAGAZINE:** Are you a member of NSM-Russia (http://www.nsm88-rus.com)?

**STEPAN:** I belong to independent group of national socialists.

**NSM:** So, there is a movement growing in Russia. But, we have seen pictures of you guys attending pro-white rock concerts. Some of the musicians have their eyes obscured by black blocks. Is it THAT dangerous in Russia to be a National Socialist?

**STEPAN:** Today, Russia is a totalitarian police state. We are the same the USSR, only the name’s another. The government fabricates criminal cases against national socialists. In Russia already many national socialists are thrown in prisons. We hide faces of comrades to protect them from reprisals.

**NSM:** In a similar vein, we have heard about Russian skinheads marching against gypsies outside of Moscow, with the police apparently approving. Is that for real?

**STEPAN:** I heard that, too. But it is only in big cities. Such practice has been developed in the nineties, but now the government spends reprisals against nationalists. At present such patrols [are only] single instances. The government of Russia is hostile to Russian people.

**NSM:** Is there a song or a quote that motivates you personally, Stepan, and keeps you fighting for the National Socialist truths?

**STEPAN:** Centuries will pass away, but out of the ruins of our towns and monuments the hatred against those finally responsible whom we have to thank for everything, International Jewry and its helpers, will grow.

**NSM:** Strong quote! Who’s that by?

**STEPAN:** Adolf Hitler, in 1945

**NSM:** I might have guessed. Sig Heil!
25 POINTS OF NATIONAL SOCIALISM REVISITED AGAIN

Awhile back in NSM Magazine, we published the “25 Points of American National Socialism Revisited.” The first version of the document was written in 1920 by Hitler himself as “The 25 points of the Program of the NSDAP” (National Socialist German Workers’ Party) as adopted February 1920. It was later published the Central Publishing House of the NSDAP, Franz Eher and Successors, in Munich Germany. The document has adapted by NSM, and has been featured prominently in the National Socialist Movement website (http://www.nsm88.org/25points/25points.html).

Based on widespread media interest, we have drafted another version that goes even further, by a moderate reorganization of topics, with occasional modern day references for clarification. This version also corrects minor translational errors, and the tone is also modified where needed from a literary point of view, to a prescriptively subjunctive tone that is better suited to political treatises.

First of all, we of the National Socialist Movement demand the union of all Whites into a greater America on the basis of the right of national self-determination. We demand equality of rights for the American people in its dealings with other nations, and the revocation of the United Nations, the North Atlantic Treaty Organization, the World Bank, the North American Free Trade Agreement, the World Trade Organization, and the International Monetary Fund. We feel that they organizations work towards their own ends, especially for non-indigenous profiteers.

We demand the abolition of the mercenary army, the end to the over-use of our military as a ‘meals-on-wheels’ program in foreign lands of no vital interest to our nation, and the formation of a true national service for the defense of our race and nation -- one that excludes non-Americans, criminals and other undesirables, and does not utilize the situational-unethical sensitivity training for example. And as might be expected, we demand the right to bear arms for law-abiding citizens.

We demand land and territory (colonies) to feed our people and to settle surplus population. Like any race or group, this is a desire of our people. However, in lieu of this, we would continue to abide by the laws of our nations of residence, but preferably with a national socialist intent and focus. For example, only members of the nation may be citizens of the state. Ideally, we would prefer for America that this would include only those of pure White blood, whatever their creed, may be members of the nation. In our worldview, non-citizens would be able to live in America only as guests, and must be subject to laws for aliens. Accordingly, due to strong philosophical differences, we would purport that no Jew or homosexual would be a member of the nation. All citizens shall have equal rights and duties, regardless of class or station.

Along this line, the right to vote on the state government and to enact legislation shall be enjoyed by citizens of the state alone. Additionally, we therefore demand that all official appointments, of whatever kind, whether in the nation, in the states or in smaller localities, shall be held by none but citizens. As can be imagined, we oppose the corrupting parliamentary custom of filling posts merely in accordance with party considerations and special interests without reference to character or abilities. This practice has lead America and many other nations down paths of incompetent governance.

To put this into effect, we demand the creation of a strong central national government for the nation, the unconditional authority of a political central government over the entire nation and its organizations, and the formation of committees for the purpose of carrying out the general legislation passed by the nation and the various American States.

We demand that the State shall make it its primary duty to provide a livelihood for its citizens. However, it must be the first duty of every citizen to perform physical or mental work. The activities of the individual must not clash within the framework of the community and be for the common good. If it should prove impossible to feed the entire
population, foreign nationals (non-citizens) would be targeted for strategic deportation. Quite simply, we strongly feel that all non-White immigration must be prevented. We demand that all non-Whites currently residing in America be required to leave the nation forthwith and return to their land of origin peacefully or by force. The National Socialist Movement endorses all such legislation which provides along this line.

One of the important ways to do this is by the abolition of incomes unearned by work, as well as the breaking of ‘interest slavery.’ Other versions of unconscionable economic greed also need to be addressed. In view of the enormous personal sacrifices of life and property demanded of a nation by any war, personal enrichment from war must be regarded as a moral crime against the nation. We therefore demand the ruthless confiscation of all war profits, and their absorption by the state. Besides returning the operations of war exclusively back to any and all originating countries, we also feel that some businesses are better managed by their country of existence. Accordingly, we demand the nationalization of all businesses which have been formed into corporations (trusts). This also means the immediate communalizing of big department stores and their lease at a cheap rate to small traders, and that the utmost consideration shall be shown to all small trades in the placing of state and municipal orders.

We also demand economic reform suitable to our national requirements. This means the prohibition of pro-Marxist unions and their replacement by National Socialist trade unions, the passing of a law instituting profit-sharing in large industrial enterprises, the creation of a livable wage, the replacement of the current tax system with a flat-rate tax based on income, the restructuring of social security and welfare to include drug testing for welfare recipients, and the immediate discontinuation of all taxes on things of life’s necessity, such as food, clothing, shelter, medicine etc.

Along the lines of the societal good, we demand the almost treasonable system of health care be completely revolutionized. We demand the creation and maintenance of a healthy middle class. We demand an end to the status quo in which people die or rot away from lack of proper treatment due to the failure of their medical coverage, excessively profit-focused health maintenance organizations, or needlessly restrictive insurance policies. We also demand the extensive development of insurance for old age and that prescription drugs be made both affordable and accessible.

We also demand a land reform suitable to our national requirements that shall be twofold in nature. The primary land reform will be to ensure all members of the nation receive affordable housing. In fact, the National Socialist Movement such stands explicitly for private property. We support the passing of a law for the expropriation of land for communal purposes without compensation when deemed necessary for land illegally acquired, or not administered in accordance with the national welfare. We further demand the abolition of ground rent, the discontinuation of all taxes on property, and the prohibition of all speculation in land.

The secondary land reform will be to ensure the environmental integrity of the nation is preserved by cleaning the urban, agricultural, and hydrographical (water) areas of the nation, setting aside land for national wildlife refuges, by creating legislation regulating the amount of pollution, carbon dioxide, greenhouse gases and toxins released into the atmosphere, and for the continued research and development of clean burning fuels and energy sources.

We also look at the social dimensions of the world in which we live in with an unclouded eye. Accordingly, we demand the ruthless prosecution of those whose activities are injurious to the common interest -- murderers, rapists, pedophiles, drug dealers, usurers, profiteers, race traitors, etc. must also be severely punished, whatever their creed or race. In fact, to simply this quest, we demand that Roman edict law which serves the current materialistic ‘new world order,’ be replaced by the commonsense Anglo-Saxon common law.

Fundamental to the strength of any society is the education of its populace. The state must consider a thorough reconstruction of our failing national system of education, with the aim of providing to every able and hardworking American the possibility of higher education, and of thus obtaining advancement. We also demand the
education of gifted children of poor parents, whatever their class or occupation, at the expense of the state.

The curricula of all educational establishments must be brought into line with the requirements of modern technological practical life. Specifically, the aim of the school must also be to give the pupil, beginning with the first sign of intelligence, a grasp of the state of the nation through the study of civic affairs.

There are other ideals which we feel need protection. The state must ensure that the nation’s health standards are raised by protecting mothers, infants, and the unborn, by prohibiting abortion and euthanasia, except in cases of rape, incest, race-mixing, or mental retardation, by prohibiting child labor and ending the rudiments of child abuse, alcoholism, and drug addiction, by creating conditions to make possible the reestablishment of the nuclear family in which the father works while the mother stays at home and takes care of the children if they so choose, and by taking away the economic burden associated with childbirth and replacing it with a structured system of pay raises for those that give birth to healthy babies, thereby returning the blessing associated with children.

To further ensure that the nation’s health and social standards are raised, legislation shall be passed promoting physical strength and providing for compulsory gymnastics and sports, and by the extensive support of clubs engaged in the physical training of youth.

We demand legal warfare against the deliberate political mendacity and its dissemination in the press. To facilitate the creation of a national press we demand that no non-American media outlet may appear without the express permission of the state, with all editors and other ‘gatekeepers’ and media contributors appearing in the English language must be members of the nation. Non-Whites should be prohibited by law from participating financially in, or influencing American media. The penalty for contravening such a law would be the suppression of any such media, and ideally the immediate deportation of the non-Americans involved.

The publishing or disseminating of any media which is not conducive to the national welfare must be forbidden. We demand the legal prosecution of all those tendencies in art and literature which corrupt our national life, and the legislated suppression of cultural events which violate this requirement. Lastly, we demand absolute religious freedom for all denominations in the state, provided they do not threaten its existence nor offend the moral feelings of the White race. The National Socialist Movement philosophically combats the Jewish-materialistic spirit within and without us, and is convinced that our nation can achieve permanent furtherance only from within on the basis of the principle -- the common good before self-interest.
Anyone who quietly examines the world in which we live will discover that there are some very universal truths. Such as the truth that one’s perception is one’s reality. Our reality is only what we make of it. If we decide that life is difficult or painful, then every endeavor in which we undertake will be difficult or painful. If we decide that life is frightening and hopeless, then everything we do will only reinforce a sense of fear and hopelessness within us. Our lives are exactly what we make of them.

Our very own frame of mind will determine how we interpret life in this world. It will also determine how we respond to conditions and circumstances in which we will all be exposed to at one point or another. We are not beings locked in a vacuum: we are living beings within this living world; we are constantly exposed to elements and experiences. But how you see the world will determine just how you are affected by the circumstances and elements of this world. The strong man who is calm, relaxed, and humble will not find the world frightening or painful. Even in hardship the strong man will always see the peacefulness of this life. For there is peace even in the most violent nooks and crannies of this world. Even in warfare there can be peace within every warrior. But this is all a matter of how those warriors see the world and their part in it.

An angry warrior who feels hatred and rage for his enemies is a pained warrior; his whole life is a life of suffering from within. He sees pain and suffering around every corner and he swells up with pain and suffering himself. He rages at the sight of those whom he hates. His anger disturbs his peace and robs him of his joy. He thinks only of violence and of vengeance. His happiness drifts away in the current of his unrested soul. He may think that those who see it differently than he does as weak people who are unwilling to fight; but he himself is merely blinded by his own will for vengeance. He is afraid, so he wants to fight. He suffers so he lashes out. I wish inner peace for these tortured souls.

The plight of the Aryan race is total: it encompasses the entire global Aryan population. We are all facing the end of our existence. How we see this situation will determine how we respond to it: our perception will dictate what our actions are from here on forward.

The progression of action begins in the mind: what we think will greatly influence what we say and how we act. If we think negative thoughts then it only stands to reason that we will commit negative actions – this will do us no good. Our future depends upon us acting correctly, and our actions depend on us thinking correctly. If we let our emotions fill our mind with the wrong thoughts, then we will be doomed to commit the wrong actions. We have to find inner calm and clarity in order to determine just what we should be doing about the decline of our race. Herein lays one of the primary problems facing the struggle of our race: the failure of people to understand the depth of National Socialism. For National Socialism to champion here in this era those representing it need to embody it and express it correctly. For National Socialism is no mere social endeavor, it is not simply a political excursion, and it is not just an economic theory; it is a complete life-philosophy. It is an entire world-view: a new view of the world itself.

National Socialism is a new understanding of life in this world; an entirely new system based upon an entirely new perception of reality. But it is first a revelation from within: a personal journey into the depth of one’s own heart and soul. It is an internal metamorphosis which changes ordinary Aryan people into extraordinary beings of heart and Will.

In many ways National Socialism is a revolutionary movement – and I would have to agree, but I would say that the first step of the revolution is not out on the streets: it begins in the hearts and minds of individual Aryans. The first revolution which we must undertake is the revolution of ourselves from within. I was once taught that “We must build the Thousand-Year Reich within our hearts before we can build it outside.” Is this not the truth? How can we expect to assemble the greatest era in human history if
we are not the greatest Aryans that we can be within our hearts first?

Two-fold is the reason why our race chooses not to accept National Socialism. The first reason is because of what they have all been taught in school and on television: the boundless lies about Adolf Hitler, National Socialism, the Third Reich, and about the modern Aryan-Racialist movement. The second reason is because throughout the years there have been countless people who have chosen to tell the world that they were National Socialist, and yet they behaved like nothing other than racial Bolsheviks of sorts – essentially behaving like violent, vulgar beasts: these type of people misunderstand National Socialism so they misrepresent it, and that misrepresentation drives away the wholesome families and brings in only the violent and anti-social loners.

Our words and actions, our expressions, determine what kind of people we attract to us – and what kind of people we repel from us.

I do understand, however, the frustration that leads to the misrepresentation of NS. There is so much in this world which is simply out of Order, and our young people are very sensitive to it: they feel it deep within themselves, and they yearn to do something about it. But without the proper guidance these otherwise enthusiastic Aryans will behave like thugs, drive away the masses, and will burn out and become disenchanted. They will be rendered inert by the correctional system or by the depletion of spiritual drive from within. But just because it is understandable does not mean that it is excusable.

National Socialism isn’t a joke: it is a very real subject, a subject of very real importance. Our people are being punished for things they haven’t done, being forced to suffer because they have to suppress who they are, and they are dying off in massive numbers: all of this because emotions were not held in check: because people let feelings interfere with their thoughts, and those negative thoughts that build up stimulate negative words and actions. And our opposition just loves to assist in this generation of false perception regarding National Socialism.

For our race to survive healthily and happily, and for National Socialism to victor over the current state of affairs, people are going to have to start taking National Socialism seriously. And to do this they are going to have to change their perspective: they are going to have to drastically change the way in which they see the world.

Every major attempt at National Socialism has failed in the past, so the methods of past times need to be let go of. The mindset of those days needs to also be let go and be replaced by one that will bring about victory. Hatred toward non-whites cannot be the platform from which we launch our campaign; all of that which is of negative heart and mind needs to be put to rest and be replaced by new thoughts, words, and actions of a positive nature. That which fills our Aryan brothers and sisters of the world with pride, honor, and joy is that which will stimulate our people to bring about the victory of the Aryan race.

We must become men and women of positive minds, of calm, relaxed, and calculating demeanor. There are countless reasons to be a racialist, and they don’t have to be negative reasons such as the hatred of non-whites or of communists. Let the positive forces drive your sense of Aryan racialism: such as the love and pride you feel for yourself and your people. Let the joy of being the most culture-bearing race motivate your thoughts, your words, and your actions: spread that joy, spread that pride, and spread that sense of positivity, that perception of a world which is good and worth living in and fighting for.

The world is beautiful if we believe that it is. We don’t even have to lie to ourselves; if just open ourselves up to the idea of a brighter and more beautiful world, then we will see the beauty in all things: including the struggle in which we are currently in together. Even in the midst of our greatest struggle and suffering we can understand that this is a beautiful world filled with beautiful possibilities. But only if we see it that way – if we close ourselves off and create a perception of negativity, unhappiness, hatred, rage, and hopelessness, then this world will become the most miserable place in the universe. We cannot let this sort of worldview take us over – we have to keep our hearts and minds in the right place, and we can do this if we believe that we can.
The hour quickly approaches: that hour when the Aryan people will be asked by Nature herself to step down from the pantheon of existence. We are all going to respond to this fact differently: some people are going to cringe with fear, while others are going to behave like wild animals, and some are going to calmly clear their mind and remember that they are human beings and that they are Aryan human beings – that they are Noble Ones. Every person will act based upon their own perception of the situation; they will act based upon how they see the world. A negative person will respond negatively, and, hence, cause our race more harm than good. While those of us who remain positive, calm, collective, and remain Noble – remain Aryan – will respond like a human being should and do what is right for our people.

We all have the choice in this world to see the world how we want to. This world can be a prison cell of hopelessness, hatred, rage, and anger, a world of unhappiness and violence – or this world can be a world of infinite possibilities: a world of hope and faith, a world of joy and happiness, a world of strength and courage, a world of Aryan Nobility. We can all still remain human no matter what the circumstances are, no matter what situation we may find ourselves in. And even in the midst of war we can still find that peace within ourselves to see that we pull through that war unscarred. We alone have this possibility: we have the choice of perception.

Our perception is our reality. The world is only what you make of it. To me, this is a world of hope for our Aryan race. This is a world where the Aryan people still have a very real chance at discovering and obtaining its freedom. This is a world where nothing is hopeless unless you believe that it is.

We are not dead yet, and so long as there is a beat in our heart and breath in our lungs we have what it takes to keep on living. We do not have to surrender ourselves to extinction just yet – or ever. We can not only pull through this, but we can also become greater than our people has ever been: more honest, proud, courageous, loving, compassionate, honorable, graceful, and dignified – we can yet become even more Noble. But it is that way because I refuse to see it any other way. It is this way because I swear to be what a real National Socialist is supposed to be – and not some angry, hate-filled, racist thug that the media and school systems tell the world we are.

If you want the victory of our race and the victory of National Socialism, then you are going to have to embody your identity as an Aryan, and you are going to have to take that very seriously. There is no more showing off in front of other people, no more showboating for attention in crowds, and no more vulgar expressions which might drive our people away. We have to become solemn and humble, and project real National Socialism for the entire world to see. I know that we can do it. Now everyone else has to believe it too. Heil Hitler!

**NSM BRITANNIA RESEARCH ON ISRAEL’S VIEW OF THE WORLD**

*Below is an example of the ‘terrorist-gangster,’ Meacham Begin’s worldview:*

“Our race is the Master Race. We are divine gods on this planet. We are as different from the inferior races as they are from insects. In fact, compared to our race, other races are beasts and animals, cattle at best. Other races are considered as human excrement. Our destiny is to rule over the inferior races. Our earthly kingdom will be ruled by our leader with a rod of iron. The masses will lick our feet and serve us as our slaves.” - Meacham Begin

"EVERY NATION HATES EACH OTHER, BUT THEY ALL HATE THE JEW."
(Mark Twain)

Mark Twain (S.L. Clemens) American writer and humorist in the 19 Century:

After the civil war the Jews have settled violently into the cotton states of the US, founded business to satisfy the needs of loans of the niggers, and after the season they became the owners of the harvest that year as well and the next year.

In old times, the white people looked dawn the Jews. The Jews were expelled from Russia by law. The reason is not a secret. This movement has started because the Christian farmers have no chance against the commercial abilities of the Jews.

The Jew is always willing to give loans against the crops. And the time of harvest the Jews owns the crops--and the next year he owns the farm as well--as in the case of Joseph.

At the time of King John, everybody had loan from the Jew. All business with any succeed were owned by the Jew. They were the king of commerce. They had to be chased out of from power. Because of similar reasons they were expelled from Spain 400 years ago, and again a century later from Austria.

During the entire history of Christian Europe, their activities had to be regulated by law. If the Jews entered the business, the Christians had to leave it. If the Jew was a doctor, they had the business.

The only reason of the law was to him to make money. Even they were prohibited to do money types of business, they always found the way of money making, and even became rich. This story has a very dirty and practical side. Religion traditionally might be a reason of with the world's opinion about the Jews. A part of it, but not for the others. The Protestants were always after the Catholics,

but they did not take away their lifehood. They did not take away the possibilities of farming and in industry.

I am sure that the Crucifixion of Jesus has nothing to do with the world's opinion about the Jews. It has must more old roots.

Their suffering has no relation to religion traditions. No, a Jew is greedy money lover. This is the reason of their beings. They did the same in Rome, and keep continuing it. Their success made them the enemies of the Human race.

You will say, that the number of Jews small. When I read the Encyclopedia Britannica, they said the Jews in the US only [number] 250 000. I responded to the editor saying that I know more Jews than that. The correct number is 25 million.

A lot of people deny their Jewish origin because of business advantages. This can be believed, since the US has a huge Jewish population. It is also true that their number also increases in politics. ("About the Jews," Hoper's Monthly A Magazine, September 1899).

The opinion of Twain about the Jews is probably the greatest secret in the American Literature. Just after his death, his eccentric daughter, Clara married a Jewish pianist (or was already married,) Gossip Gabrilovitsch. Soon after Twain's publishers were ordered to omit his writing "About the Jews" from his volumes of collected works, if it is there, for example;" The Man that Corrupted Handlebar of other Stories". Since the agitators and speakers were all Jews who supported abolition (demolishing slavery) which had its peak during the civil war (which was financed by Jews both sides), the real question is, did they plan its commercial sides in advance? The economic exploitation after the war was strongly associated with the cotton merchants Jewish "carpetbaggers."
Florida is a hot place. Most of the time when you think of it, you imagine the streets of Miami, packed with non-whites, drug culture and hyper-capitalism to the tune of 40 story skyscrapers looking down at crowded beaches. After the street action down at Fort McCoy, I will never think of the state that way again.

We showed up at a shopping center near the main intersection of town. The place was so interesting with it’s antique stores that I planned to stick around after it was all over to look around. Everything was very neat, and everyone was polite, friendly and helpful. Of all the locals, I think I might have seen only one or two non-whites. From my travels, I’ve learned that there are pocket-white towns like this all over the South. That didn’t guarantee that the public was going to remain friendly once the signs and flags went up though.

“Let’s see if everyone here has had their eyes on the TV screen or the real situation,” I thought to myself as we got our signs together.

Happily, reality and common sense has apparently won out of North American Marxism in Fort McCoy. Never have I ever seen such a positive response from a street action. Normally, you will see a better response from the public from street actions because of certain factors. There is rarely any press there. People are afraid of the press more than they are the cops. Everyone has a fear that they’ll be caught by the media supporting their people’s interest. Then they think, they’ll lose their job and hence any way to support their families. Now that’s progress, right!? Cheaper than re-education camps! Or even better, an “anti-racist” thug will club them over the head and threaten to burn their homes down. During a street action, there are little to no police to protect the anti-racist thugs, nor is their much if any media to report people for thought crimes. The REAL picture shows during a street action for these reasons.

People were honking horns and waving. That was small fish in terms of support though. They were stopping their cars in the parking lot, taking pictures with us, and voicing their support. Another first for me was people giving donations. At least three people gave us $10-20 and two of them wanted an address so they could send more. This shocked me. Saying, “that is a good idea, thanks for promoting it” is free. Lots of people did it. But giving money or other tangible means of support is another thing. All this and we had in no way asked for donations. If we had, I thought, what would have been the response then? What kind of materials could we have produced for hand-outs? In the NSM, we all know how to make $50 go a long, long way.

Then there was the one “protester.” Out of literally hundreds of people who showed support, only one acted up out of protest. This individual was driving a cruiser, denoting the fact that this person was an obvious homosexual. He screamed from his window from a safe distance, “Communists! Racists!”

Ironically, communism, the most bloody and genocidal ideology in human history, is the tree from which anti-racist thought grows from and bares its fruit. Perhaps a few hours on the sofa in front of the History Channel would at least help this individual arrive at the conclusion that National Socialism is the polar opposite of communism and his core ideology mirrors that of the communist himself.

The after party was a blast, hosted by the local motorcycle club at their clubhouse. We enjoyed a feast and felt good to be around people who knew the score. Around dark, we all called it a night and headed back home. The Florida unit had done a perfect job of putting the whole thing on, most especially Tony, Dave and Gary. Thanks again to everybody who showed up and did their part! I have changed my mind about Florida. That is for sure!
The California chapter organized yet another successful rally, in fact our largest California rally to date. The *Reclaim the Southwest Campaign* continues forward. Thursday evening myself and a few of our Comrades went down to Pomona City Hall for an interview with a Los Angeles based TV network.

On Saturday morning American patriots gathered and we drove a convoy of 19 cars and vans into Pomona for the rally. The National Socialist Movement along with some solid comrades from other groups brought in approximately 80 or more Patriots to Pomona City Hall to protest the California Dream Act, the influx of illegal aliens, and sanctuary cities.

Several local media outlets ran reports claiming a couple dozen or 30 NSM supporters attended the event while others more accurately quoted 75, these figures do not include any of our supporters who attended out in the mostly hostile audience.

We parked our cars in a secure lot, formed up, and headed towards the front of City Hall. The usual assorted dregs of society (members of the ARA/anti-racist action, communist party, along with a collection of various violent anarchists) let loose as we approached the street and started throwing drinks, traffic cones, and whatever other items they could find. Several of the degenerates picked up horse droppings (feces) with their bare hands and threw the horse crap into the air which flew back into their own group of supporters. Quite entertaining to see!

When the National Socialist Movement refers to those who publicly stand against us as vile, degenerate, dirty, or sick people, this is the exact type of example we can use to prove our point time and time again. What type of person picks up feces with their bare hands and tosses it into the air like a child playing with a ball? Many of those whom oppose us are mentally ill, and such examples just further prove our point.

The speeches from the NSM and other patriots started, one after the other various speakers hammered the issues effecting Pomona, the Southwest, the economy, the Dream Act, and much more. Men and women of action were present, and prepared to face the hostile and mentally sick forces that opposed us on this day. In a day and age where laziness, complacency, and downright cowardice comes from many who claim to believe in what we fight for, these men and women were present on the front lines, in a City where White people are already the minority at 48% of the local population.

Saturday evening after the rally an excellent after party was scheduled and held on private property. An excellent Italian style meal was provided by NSM Inland Empire, followed by several announcements, patching in of NSM probates, and awards which were handed out, and then the stage was set for musical guests *Youngland*. This really talented band and a great bunch of guys played an excellent show! Everyone had a great time at the after event, and as always after the work is done, we know how to have a good time!
Sunday afternoon was a somber affair as we headed down to an undisclosed location at the California Border with Mexico. The ashes of our former Region 11 Leader Lt. Jeff Hall were placed along the Border as he would have wanted. Most of us who were present scattered some of the ashes in tribute to our fallen comrade while traditional Scottish bagpipes were played by one of our comrades in respect to old tradition and customs.

The sound of the bagpipes as it echoed throughout the area was louder and carried further than I could have ever imagined. A fitting final tribute to our brother who had inspired so many men and women, and a man who had the opposite effect upon those who hate us, they cursed his name and made signs of disrespect towards his memory at the rally the previous day. From this day forward Lt. Jeff Hall remains on guard along the U.S. Mexico Border, where he spent countless days and nights in life, he now stands guard for eternity. We miss you Brother. The Pomona Rally was done in remembrance, and was originally one of Jeff Hall’s planned events.

BATTLE CRY By Troy P.

There is a battle being fought across our great land, a battle for outright control of our country. From the inner streets of our biggest cities, to the smallest towns of our rural neighbors…it rages on. It’s a Race War, and at this very moment WE are losing...Losing to illegals, to minorities of every color, losing to our ZOG ‘leaders’ who control our government, the media, the Jew banks, the left wing radicals...Giving up OUR freedom and liberty, morals and values. Giving up our jobs, our neighborhoods, and ultimately the future of our children!

It is time...time for us to stop losing the battle and start winning the War! We as a race have to join together in this great fight. We have to stop being afraid. Afraid of what will happen. Afraid of what won’t. Afraid of what others will think of us...It has been said “To conquer fear is the beginning of Wisdom” it’s time to conquer our collective fear...our enemies have no fear. They despise our race and us.

We have become puppets of the Jude-capitalist system, slaves to another master and yet we take it. We watch as they flood our borders, steal our jobs, and milk the social welfare system dry. And we watch as these rats infest our country, our states, our homeland even our very neighborhoods, bringing with them drugs, violent crime and their poisonous subhuman subculture and influence into our society. And then we complain. We complain to ourselves or quietly to others. But we don’t ACT.

Take a hard look into the mirror and ask yourself, “What have I done for myself and my race? Do I want to stand here and watch my country and my race disintegrate into oblivion, or do I want to join the war, and charge into the battle headfirst?” Do the honorable thing, the dutiful thing. The right thing. Act by joining the White Movement. Act by supporting your race, taking pride in the color of your skin, your brave ancestors’ skin, your children’s skin.

As the great Adolf Hitler once wrote, “If by the instrument of governmental authority, a people is being driven to its destruction, then rebellion is not only the right, but the DUTY of every member of that people!” In conclusion, let us bear down on our enemies...Let us join together and FIGHT! HAIL VICTORY!!!

When we started production of this issue of NSM Magazine, there was something magical going on. This ‘magic’ has not only part of the fascinating discussions we’ve been having with our writers, graphic artists, photographers, editors, foreign comrades, and other creatively ‘big thinkers,’ but part of the way this issue almost put itself together.

Commander’s Forward says goodbye to a comrade we will greatly miss. The “Battle in Trenton,” “Anti-White Hate Crimes,” “Anti-White Racism,” “Anarchy in London,” and “King Memorial” show some of the bad sides of those against us. Reports from Florida, Pomona, Wisconsin, and Las Vegas tend to show the same positives for us, and negatives for others, often with compelling narrative description and analysis. While “Aryan Mentality,” “Awakened Saxon,” “The Aryan Way” are inspiration at its best!

We’ll also help you understand that “Neo-Nazis’ Not Illegal,” as we “Drop Hammer on ‘Wetbacks’.” And of course, what issue would be without an investigation of “Israel’s Worldview” or “Mark Twain on the Jews”? Of course, we can resist a making you think around the world AND laugh all over, too...with “Racism-PC Definition,” “Hitler Writings,” “Interview with a ‘Russian Nazi’,” and the “25 Points of N.S. Revisited Once More.”
